The penthouse seemed to have gone to Lang and Crawford as an unasked-for prerogative. It just became a habit, since they seemed to have developed a bond between them and none of the other three complained. Neither of the other women seemed to be suffering in any way. When the ship finally did show up, it was no longer a NASA ship. It was sponsored by the fledgling International Space Agency. Its crew came from all over Earth. Its drive was new, too, and a lot better than the old one. As usual, war had given research a kick in the pants. Its mission was to take up the Martian exploration where the first expedition had left off and, incidentally, to recover the remains of the twenty Americans for return to Earth. Feeling betrayed and pissed-off, he grabbed the nearest can of vegetables (beets, he would later discover, and he hated beets) and handed it to Mr. Morone with the can of Spam. He walked along the edge of the dense growth, which now covered several acres. He came to a section where the predominant color was purple. It was strangely different from the rest of the garden. There were tall whirligig derricks but they were frozen, unmoving. And covering all the derricks was a translucent network of ten-centimeter-wide strips of plastic, which was thick enough to make an impenetrable barrier. It was like a cobweb made of flat, thin material instead of fibrous spider-silk. It

She said it supported her theory that these plants were there only as caretakers to prepare the way for the less hardy, air-breathing varieties to come. They would warm the soil and bring the water closer to the surface, then disappear when their function was over.. "Aw, shuddup." The computer returned obediently to its meditations.. "We have been studying this problem for some time now, and we believe there is a solution. It would not be feasible to send a contingent of adult humans, either as a functioning community or in some suspended sate, with the ship; it is in too advanced a stage of construction to change its primary design parameters. But then, why send adult humans at all?" He. spread his arms appealingly. "After all, the objective is simply to establish an extension of our race where it would be safe from any calamity that might befall us here, and such a location would be found only at the end of the voyage.
