"And how do you know it didn't?" "There are no dangerous jobs." "It can do it by itself," Diamond said, and held out the fife away from his lips. His fingers. So it proved. Indeed, to Golden's amazement, Master Hemlock sent back a scrupulous two-fifths of the prenticing-fee. With the packet, which was delivered by one of Golden's carters who had taken a load of spars down to South Port, was a note for Diamond. It said, "True art requires a single heart." The direction on the outside was the Hardic rune for willow. The note was signed with Hemlock's rune, which had two meanings: the hemlock tree, and suffering. him. In the young dowsler he recognized a power, untaught and inept, which he could use. He needed much more quicksilver than he had, therefore he needed a finder. Finding was a base skill. Gelluk had never practiced it, but he could see that the young fellow had the gift. He would do well to learn the boy's true name so that he could be sure of controlling him. He sighed at the thought of the time he must waste teaching the boy what he was good for. And after that the ore must still be dug out of the earth and the metal refined. "I told him," Golden said, "that I had seen you, with a turn of your hand and a single word." "I forget-I always forget," he said, downcast again. "I forget the walls of the prison. "This way," he said, falling into step beside her, and after a while, "This way," and so they came quite soon to a door. It was not made of horn and ivory. It was uncarved oak, black and massive, with an iron bolt worn thin with age. "This is the back door," the mage said, unbolting it. "Media's Gate, they used to call it. I keep both doors." He opened it. The brightness of the day dazzled Irian's eyes. When she could see clearly she saw a path leading from the door through the gardens and the fields beyond them; beyond the fields were the high trees, and the swell of Roke Knoll off to the right. But standing on the path just outside the door as if waiting for them was the pale-haired man with narrow eyes. Find the center, find the center. That's the question to ask. That's what to do..." As he muttered on to himself, routing out his heavy cloak, setting water to boil on the small fire he had lighted earlier, he wondered if he had always talked to himself, if he had talked all the time when Silence lived with him. No, it had become a habit after Silence left, he thought, with the bit of his mind that went on thinking the ordinary thoughts of life, while the rest of it made preparations for terror and destruction. lifted my head I saw only a black void. He was in fact a town boy, born in Gont Port. He had said nothing about himself, but Dulse had asked around a bit. The father, a longshoreman, had died in the big earthquake, when Silence would have been seven or eight; the mother was a cook at a waterfront inn. At twelve the boy had got into some kind of trouble, probably messing about with magic, and his mother had managed to prentice him to Elassen, a respectable sorcerer in Valmouth. There the boy had picked up his true name, and some skill in carpentry and farmwork, if not much else; and Elassen had had the generosity, after three years, to pay his passage to Roke. That was all Dulse knew about him. "My mother was born in Endlane, round by Faliern Forest," Otter said. "Do you know that town?
