"I don't know. It's why I wanted to come to Roke. To find out." Still it rankled him that Diamond had let him down flat, without a word of thanks or apology. So was getting hot. "He cannot harm me anywhere," she said, the fire running through her veins again. "If he tries to, I'll destroy him." terrifying place; yet Otter felt a sense of shelter in it. He was half sorry to go back up into. He was fortunate in having met a farm heifer, not one of the roaming cattle who would only have led him deeper into the marshes. His Ulla was given to jumping fences, but after she had wandered a while she would begin to have fond thoughts of the cow barn and the mother from whom she still stole a mouthful of milk sometimes; and now she willingly took the traveler home. She walked, slow but purposeful, down one of the tracks, and he went with her, a hand on her hip when the way was wide enough. When she waded a knee-deep stream, he held on to her tail. She scrambled up the low, muddy bank and flicked her tail loose, but she waited for him to scramble even more awkwardly after her. Then she plodded gently on. He pressed against her flank and clung to her, for the stream had chilled him to the bone, and he was shivering. The man named Ged went to him and took his hands, which were half stretched out, pleading. feet, full of tangling reed-roots. He made no noise as he moved slowly out into the pool, and the. They worked and taught in the Great House. They saw it go up stone on stone, every stone steeped in spells of protection, endurance, peace. They saw the Rule of Roke established, though never so firmly as they might wish, and always against opposition; for mages came from other islands and rose up from among the students of the school, women and men of power, knowledge, and pride, sworn by the Rule to work together and for the good of all, but each seeing a different way to do it. He watched the staff that stood on the shining floor. In a little while he saw it quiver very. with themselves, their life. When they talked to each other it was always about what they were. "She gave me freedom," he said. "And I still feel that all I do is done through her and for her." "Ah," San said, coming to the door, and hemmed a bit. "No need, Master Otak. This here is Master Sunbright, come up to deal with the murrain. He's cured beasts for me before, the hoof rot and all. Being as how you have all one man can do with Alder's beeves, you see..." went to the door to see what she loved best to see, the sky before sunrise. Looking down from it. "Is it Waris?" "No. I'll write him," Diamond said, in his new, level voice. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (11 of 111) [2/5/2004 12:33:30 AM]. wasting cough, Birch's wife dared not trouble the wise young man about it, but sent humbly to Rose. ever more names, but using their knowledge for nothing. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in Diamond's head and sang themselves over and over: knowledge, or-der, and contro-----..... The boy's drop-jawed stare irritated Hemlock, though he knew it shouldn't. Wizards are used to. Then they were all silent. the mountain, all the sweep and cresting of it, over the calm waters where he used to try to raise. "It's him has to go." "Then to me you are Silence," the wizard said. "You can sleep in the nook under the west window. There's an old pallet in the woodhouse. Air it. Don't bring mice in with it." And he stalked off towards the Overfell, angry with the boy for coming and with himself for giving in; but it was not anger that made his heart pound. Striding along-he could stride, then-with the seawind pushing at him always from the left and the early sunlight on the sea out past the vast shadow of the mountain, he thought of the Mages of Roke, the masters of the art magic, the professors of mystery and power. "He was too much for 'em, was he? And he'll be too much for me," he thought, and smiled. He was a peaceful man, but he did not mind a bit of danger. seen how to get it.
