Change is inevitable; variation from individual to individual is certain. A species in which sexual reproduction is the norm has the capacity to adapt readily to slight alterations in environment since some of its valiants are then favored over others. Indeed, a species can, through sexual reproduction, split with relative ease into two or more species that will take advantage of somewhat different niches in the environment.He hadn't mentioned North Carolina except that once the day before, and I was extremely interested in all subjects he wanted to avoid. "What's it like in the Blue Ridge? Coon huntin\* and moonshine?". "Yeah, I was working on a story, but I'd rather play gin." He grinned, open and artless. "If I could."Very well then, I have a plan." The site had been chosen because it was a smooth area, allowing easy access up a gentle slope to the flat plains of the Tharsis Plateau, while at the same time only a kilometer from the valley floor. No one could agree which area was most worthy of study: plains or canyon. So this site had been chosen as a compromise. What it meant was that the exploring parties had to either climb up or go down, because there wasn't a damn thing worth seeing near the camp. Even the exposed layering and its areological records could not be seen without a half-kilometer crawler ride up to the point where Crawford had climbed to watch the sunrise.. "No!"
