Very few people ever spoke to Gelluk unless he compelled them to. The spells by which he silenced, smiled, and the Herbal belatedly made the same gesture.. "And no friends?". Highdrake took Medra as his student, gratefully. "I was taught my art by a mage who gave me freely all he knew, but I never found anybody to give that knowledge to, until you came," he told Medra. "The young men come to me and they say, "What good is it? Can you find gold?" they say. "Can you teach me how to make stones into diamonds? Can you give me a sword that will kill a dragon? What's the use of talking about the balance of things? There's no profit in it," they say. No profit!" But a year or so later he saw Diamond out in the back garden with his playmate Rose. The children were squatting on their haunches, heads close together, laughing. Something intense or uncanny about them made him pause at the window on the stairs landing and watch them. A thing between them was leaping up and down, a frog? a toad? a big cricket? He went out into the garden and came up near them, moving so quietly, though he was a big man, that they in their absorption did not hear him. The thing that was hopping up and down on the grass between their bare toes was a rock. When Diamond raised his hand the rock jumped up in the air, and when he shook his hand a little the rock hovered in the air, and when he flipped his fingers downward it fell to earth.. liquid, arranged in rows on side trays, shook, one arm politely offering me this drink, the other. She was eyeing him, but not for long, and not meeting his eyes. Like an animal, like a cat, she was, sizing him up but not challenging. Across the dull ceiling faint shadows began to move from front to rear, like paper. "Failed? Sent away? Ran away?". Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay.. "And it was useful knowledge," Tern said. "How can people be anything but ignorant when knowledge isn't saved, isn't taught? If books could be brought together in one place...". Storm followed storm, as if the winds had risen in rage against the tampering and meddling of the crafty men. Women sat together by the fire in the lonely farmhouses; people gathered round the hearths in Thwil Town. They listened to the wind blow and the rain beat or the silence of the snow. Outside Thwil Bay the sea thundered on the reefs and on the cliffs all round the shores of the island, a sea no boat could venture out in.. exploitation. The land outlasts the empires. Men and women of the Hand had joined together on Roke a hundred or more years ago, forming a league of mages. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and re woven by the wise women of the island, and had no commerce with any other people. "We can't save them," Ember said. "We couldn't save ourselves." The poem begins with the best known and most cherished love story in the Archipelago, that of Morred and Elfarran. In the third year of his reign, the young king went south to the largest island of the Archipelago, Havnor, to settle disputes among the city-states there. Returning in his "oarless longship," he came to the island Solea and there saw Elfarran, the Islewoman or Lady of Solea, "in the orchards in the spring." He did not continue on to Enlad, but stayed with Elfarran. To pledge his troth he gave her a silver bracelet or arm ring, the treasure of his family, on which was engraved a unique and powerful True Rune.. such a fool when I'm outside them... Not far away lay another huddled heap, rotted red silk, long hair, bones. Beyond it the cavern stretched away. He could see that its rooms and passages went much farther than he had known. He saw it with the same uncaring interest with which he saw Tinaral's body and his own body. He felt a mild regret. It was only fair that he should die here with the man he had killed. It was right. Nothing was wrong. But something in him ached, not the sharp body pain, a long ache, lifelong.. the high green hill. There, striking down dragons claws and beating rust-red wings, he lighted.. life. Healers' paraphernalia and drying herbs were everywhere, though ranged in some order. Near the fine stone fireplace, where a tiny wisp of sweet herbs burned, was a bedstead. The woman in it was so wasted that in the dim light she seemed nothing but bone and shadow. As Tern came close she tried to sit up and to speak. Her daughter raised her head on the pillow, and when Tern was very near he could hear her: "Wizard," she said. "Not by chance." . There was too much fuss already made over that..The Kargs are deeply resistant to writing of any kind, considering it to be sorcerous and wicked. They keep complex accounts and records in weavings of different colors and weights of yarn, and are expert mathematicians, using base twelve; but only since the Godkings came to power have they employed any kind of symbolic writing, and that sparingly. Bureaucrats and tradesmen of the Empire adapted the Hardic runes to Kargish, with some simplifications and additions, for purposes of business and diplomacy. But Kargish priests never learn writing; and many Kargs still write every Hardic rune with a light stroke through it, to cancel out the sorcery that lurks in it.. The tactful Ivory asked no more. But he wanted to see the girl as beautiful as a flowering tree. He rode past Old Iria regularly. He tried stopping in the village at the foot of the hill to ask questions, but there was nowhere to stop and nobody would answer questions. A wall-eyed witch took one look at him and scuttled into her hut. If he went up to the house he would have to face the pack of hellhounds and probably a drunk old man. But it was worth the chance, he thought; he was bored out of his wits with the dull life at Westpool, and was never slow to take a risk. He rode up the hill till the dogs were yelling around him in a frenzy, snapping at the mare's legs. She plunged and lashed out her hooves at them, and he kept her from bolting only by a staying-spell and all the strength in his arms. The dogs were leaping and snapping at his own legs now, and he was about to let the mare have her head when somebody came among the dogs shouting curses and beating them back with a strap. When he got the lathered, gasping mare to stand still, he saw the girl as beautiful as a flowering tree. She was very tall, very sweaty, with big hands and feet and mouth and nose and eyes, and a head of wild dusty hair. She was yelling, "Down! Back to the house, you carrion, you vile sons of bitches!" to the whining, cowering dogs..Island was, they told him, the heart of Earthsea. The first land Segoy raised from the waters in."He does.
