Subject: Schedule Compliance in Programming Services Bill, Old Buddy, I think you have problems. J.L. was down this morning bitching about your performance. The PERT printout indicates you have slipped schedule on Accounting Project 8723 by two months. In addition, your usage of central computer facilities is running 42 percent over budget Remember that the Megalo Corporation is not in business for its health. Accounting is depending on Program S723 to keep track of profitability in the entire Computer Products Division..Sirocco had endorsed the request, it was true, but Colman wasn't sure it would count for very much since Sirocco ran D Company, and anything he said was probably inverted somewhere along the chain as a matter of course. Perhaps he should have persuaded Sirocco not to endorse the request. On the other hand, if anything recommended by Sirocco was inverted to start with, and if Pendrey was crazy but normal by the Army's standards, and if the premises that Pendrey was working with were also crazy, then the decision might come out in Colman's favor after all. Or would it? His attempt to think the tortuous logic of the situation once again was interrupted by Swley at last leaning back and turning his face away from the screen..159.Identical twins are very like each other and often display mirror-image characteristics. I looked at the plate-glass doors. I guess it would be pretty easy to walk through one of them if yofl thought it was open. "Are all the apartments alike?
