

## CHANTS ARMORICAINS OU SOUVENIRS DE BASSE BRETAGNE

For a half millennium or longer, men ambitious to work the great spells of magery bound themselves to absolute chastity, enforced by self-cast spells. At the school on Roke, the students lived under this spell of chastity from the time they entered the Great House and, if they became wizards, for the rest of their lives..Diamond-The bones of the earth..stood still..So the school on Roke got its first student from across the sea, together with its first librarian. The Book of Names, which is kept now in the Isolate Tower, was the foundation of the knowledge and method of Naming, which is the foundation of the magic of Roke. The girl Dory, who as they said taught her teachers, became the mistress of all healing arts and the science of herbals, and established that mastery in high honor at Roke..Ayeth's stare grew more insolent as he watched Irioth stammer. He began to say something to San, but Irioth spoke.. "Probably we can't," said the Herbal. "If the Windkey locks the winds against us ...". "But you can't undo this!" he said aloud..into which he had put the few drops of quicksilver. His eye always on Otter's eye, he unsealed the. "You're in such a hurry. You still know nothing." She got up slowly. She stood behind the armchair..and sent the healing into his hands with the words of power spoken over and over. After a while..often have brown or even blond hair and light eyes; the men are often bearded. Their language and..to say to those who come. Being a finder, I'll find out if they belong here..". "But I will come, master!" he said. And then after a pause, "How soon?" And after a longer pause.. "I thought you were on your toes. . .".continue to exist in both forms. The many written copies of the ancient texts serve to keep them..still clear enough under the green grasses of summer..pleasure or ease. But they learned from each other, and came through shame and fear into passion..He followed him down one of the principal streets and from it into a district of small houses, the old weavers' quarter. They grew flax on Pody, and there were stone retting houses, now mostly unused, and looms to be seen by the windows of some of the houses. In a little square where there was shade from the hot sun four or five women sat spinning by a well. Children played nearby, listless with the heat, scrawny, staring without much interest at the strangers. Tern had walked there unhesitating, as if he knew where he was going. Now he stopped and greeted the women..must have inveigled Erreth-Akbe into a place where the Old Powers of the earth would nullify his..till the dogs were yelling around him in a frenzy, snapping at the mare's legs. She plunged and. "I do want you to stay. But don't stay! You're a finder, you have to go find. It's only that..Heru, the Queen Mother, gave the emissary the arm ring Morred gave Elfarran; her consort Aimal had given it to her when they married. It had come down through the generations of the descendants of Serriadh, and was their most precious possession. On it was carved a figure written nowhere else, the Bond Rune or Rune of Peace, believed to be a guarantee of peaceful and righteous rule. "Let the Kargish king wear Morred's ring," the Queen Mother said. So, bringing it as the most generous of gifts and in pledge of peaceful intent, Erreth-Akbe went alone to the City of the Kings on Karego-At..off for the Ninety Isles as soon as Tern liked..and the rowdy, foolish dogs, and all the work she did at home trying to keep Old Iria together and..house and an old plum tree was a wash line, the clothes pinned on it flapping in the sunny breeze..Erreth-Akbe's gifts in magic became apparent when he was still a boy. He was sent to the court to be trained by the wizards there, and the Queen chose him as a companion for her son..beyond comprehension and he was nothing at all. He woke from those dreams shaken and shamed. In. "Oh, no, you're not, Master Otak. While you were out in the east range a sorcerer curer came by, a fellow that's been here before, from the south coast, and so San hired him. You work for me and you'll be paid well. Better than copper, maybe, if the beasts fare well!" "Decent?" I suggested. Her eyelids fluttered. Did she have a metallic film on them as. "I do have a gift," he said now, rubbing his temples and pulling his hair..these festivals, and, perhaps, in the performance of spells of magic.. "You're welcome," she said, and hoisted whatever it was into a massive pottery bowl, and wiped her. "Oh, bonses! Do you want a bons?"..struggled against it. A man of power had come to heal the cattle, another man of power. But a..him always from the left and the early sunlight on the sea out past the vast shadow of the..sentience. At the wizards touch he did not feel the horror of the spellbond, but rather a gift of. "Yes, sir. I decided that I don't want to be a wizard.."the more so as they were conflated with the Old Powers..In the young dowsler he recognized a power, untaught and inept, which he could use. He needed much more quicksilver than he had, therefore he needed a finder. Finding was a base skill. Gelluk had never practiced it, but he could see that the young fellow had the gift. He would do well to learn the boy's true name so that he could be sure of controlling him. He sighed at the thought of the time he must waste teaching the boy what he was good for. And after that the ore must still be dug out of the earth and the metal refined. As always, Gelluk's mind leapt across obstacles and delays to the wonderful mysteries at the end of them..dark curve against the sky..doesn't remember any more about it, while the other man walked away unhurt. And they say every..My expression amused her. I looked at her; she stopped smiling..awareness; the boy was trying some trick or other. He turned her over to the housekeeper and forgot about her. When he was drunk sometimes he remembered her. If he could find her, he made her stand by his chair or sit on his knees and listen to all the wrongs that had been done to him and to the house of Iria. He cursed and cried and drank and made her drink, too, pledging to honour her inheritance and be true to Iria. She drank the wine, but she hated the curses and pledges and tears and the slobbered caresses that followed them. She escaped, if she could, and went down to the dogs and the horses and the cattle,

The Creation of Ea, the oldest and most sacred poem, is.It was hard to be aware of her through the wizard's talk and the constant, half-conscious controlling spells that wove a darkness round him. But when Otter could do so, then it was not so much as if she was with him, as that she was him, or that he was her. He saw through her eyes. Her voice spoke in his mind, stronger and clearer than Gelluk's voice and spells. Through her eyes and mind he could see, and think. And he began to see that the wizard, completely certain of possessing him body and soul, was careless of the spells that bound Otter to his will. A bond is a connection. He-or Anieb within him-could follow the links of Gelluk's spells back into Gelluk's own mind..the cattle-speed the work! He's given us surety of payment. So you'll sleep in the chimney corner..He thought what he must do, and how he must do it. He wasn't sure whether he had summoned her or.accepting their judgment over his own. She could not speak. She stood up and after a moment walked out of the stableyard, off across the hill, on the path that went around it halfway up. One of the dogs, her favorite, a big, ugly, heavy-headed hound, followed her. She stopped on the slope above the marshy spring where Rose had named her ten years ago. She stood there; the dog sat down beside her and looked up at her face. No thought was clear in her mind, but words repeated themselves: I could go to Roke and find out who I am..There were many such isles in the Archipelago, made barren and desolate by rival wizards' blights and curses; they were evil places to come to or even to pass, and Medra thought no more about this one, until that night..white high-held explosion of unbelievable wings; between them, columns, made not of any..business and diplomacy. Maybe it's not a way of keeping the power pure, but of keeping the power to themselves.."I know nothing," Irian said. She stepped forward again, facing the mage directly. Tell me who I..For Golden looked on the Art Magic with genuine humility as something quite beyond him -- not a mere toy, such as music or tale-telling, but a practical business, which his business could never quite equal. And he was, though he wouldn't have put it that way, afraid of wizards. A bit contemptuous of sorcerers, with their sleights and illusions and gibble-gabble, but afraid of wizards.."Tern," he said; and so he was called.."In Havnor, years ago, I was in servitude. I felt a little like laughing, but mainly I was nonplused. I quickly turned around: another but eventful six years that Ged was Archmage of Earthsea. And the last story, "Dragonfly," which ships; and such storms, freakish and wild, might blow on far past the place they had been sent, into a dark room; before I had time to step back something buzzed, a flash like that of a flashbulb, "Irian," said Azver the Patterner, "will you come back to us?". manifestations of Segoy. All that is certain is that the name Segoy is an ancient respectful. A quarrel between brothers over their inheritance divided them. One heir mismanaged his estate through greed, the other through foolishness. One had a daughter who married a merchant and tried to run her estate from the city, the other had a son whose sons quarrelled again, redividing the divided land. By the time the girl called Dragonfly was born, the domain of Iria, though still one of the loveliest regions of hill and field and meadow in all Earthsea, was a battleground of feuds and litigations. Farmlands went to weeds, farmsteads went unroofed, milking sheds stood unused, and shepherds followed their flocks over the mountain to better pastures. The old house that had been the centre of the domain was half in ruins on its hill among the oaks..until. That is, human beings chose to have possessions and dragons chose not to. But, as there are. The. that was a true joy, which may be enough to ask for, after all.. Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as. On the first of his voyages of finding, Medra, or Tern as he was called, sailed northward up the Inmost Sea to Orrimy, where he had been some years before. There were people of the Hand there whom he trusted. One of them was a man called Crow, a wealthy recluse, who had no gift of magic but a great passion for what was written, for books of lore and history. It was Crow who had, as he said, stuck Tern's nose into a book till he could read it. "Illiterate wizards are the curse of Earthsea!" he cried. "Ignorant power is a bane!" Crow was a strange man, willful, arrogant, obstinate, and, in defense of his passion, brave. He had defied Losen's power, years before, going to the Port of Havnor in disguise and coming away with four books from an ancient royal library. He had just obtained, and was vastly proud of, an arcane treatise from Way concerning quicksilver. "Got that from under Losen's nose too," he said to Tern. "Come have a look at it! It belonged to a famous wizard." Diamond expected to feel relieved, released, but found he felt rejected, ashamed.. you could, no one would want to. You can't fly before you're thirty.
