Kath asked..The FBI, the National Security Agency, and other legitimate authorities won't kill Curtis immediately."Down!" Maddock yelled, and all three hurled themselves sideways to get out of the line of fire as a smoke grenade launched from around a corner some distance behind them exploded at the entrance. Fire from the entranceway raked the area as the D Company squad broke cover and rushed forward through the smoke, hut the first of them was still twenty feet away when the steel door slammed down and alarms began sounding throughout the Government Center. -.Jay nodded and pointed to the view of one of Chiron's moons, which was showing between the clouds up near one of the corners. "That's Remus," he said. "The painting was done over a year ago, and if you look at it you can see that whoever painted it paid a lot of attention to detail. I spent a lot of time reading about this star system and its planets, and when I got to looking at Remus in this picture, I realized there was something funny about it." Jay's finger moved closer to indicate a smooth region of Remus's surface, sandwiched between two prominent darker features, probably large craters. ~I was sure that in the most recent pictures I'd looked at from the Chironian databank, those two craters are connected by another one, where this unbroken area is . . . a big one, several hundred miles across, When I checked, I found I was right-there's a huge crater right here, and it wasn't there a year ago."..Colman nodded. Merrick's blue-eyed boy had let him down, and he needed a replacement. Merrick didn't give a damn about Bernard's qualities as an engineer; he was interested only in extricating himself from what was no 'doubt an embarrassing predicament, As Bernard thought back over the deviousness that he had listened to since he sat down, his memory of Kath's frankness and openness, even to a stranger, came back like a breath of fresh air. "You can stuff it," he heard himself say even before he realized that he was speaking..remarkable. The crudeness of what

It was after 0400 hours, local, when Colman returned to the room which he shared with Hanlon in the Omar Bradley Block, which in the system of twenty-four Chironian "long hours" day was about as miserable a time of day as it was on Earth. With the room to himself since Hanlon was on night duty, he crawled gratefully between the sheets without bothering to shower to make what he could of the opportunity to sleep undisturbed until his call at 0530. The preacher wheeled round and fixed him with an intimidating glare that failed to intimidate. "Do you believe in atoms?" .than to a queen. Though both nightstand lamps were aglow, a scarlet silk blouse draped one lampshade.. Padawski and his followers had somehow shown up on the far side of the Medichironian, which was only sparsely settled, and seemed to be settling in as bandits in the hills. What a bandit would hope to achieve on a world like Chiron was hard to see, but revenge against Chironians seemed to have a lot to do with it; two isolated homes had been invaded, ransacked, and looted, in the course of which five Chironians and one soldier had been killed, Three Chironians, including a fifteen-year-old girl, had been raped. The Army was scouring the area from the air and with search parties on foot, but so far without success ~the renegades were well trained in the arts of concealment. Usually, she avoided the shower and soaked in the tub? though with nothing more fragrant than Ivory. "That's how they get rich," Pernak said. "By being good at what they do and getting better. Who but a crazy would do anything and stay poor by choice?" "You want a glass?" she asked. "The bottle's probably cleaner." "Has to be," she agreed as she headed. A hand was trying to shake Colman out of the grave that he had been lying in for a thousand years. "Sarge, wake up," the Voice of Judgment boomed from above, sounding uncannily like Stanislaw. "Hanlon wants you over at the main gate." .Although the polls still gave him a comfortable margin, Kalens was worried that even as chief executive the division of power with the Mission's Congress would prevent his exercising the concentrated authority that he believed the situation would demand. Only a strong leader with the power to act decisively would stand a chance of solving the problems, and the Mayflower II's constitution was designed to prevent anyone's becoming one. Its spirit was an anachronism inherited from antiquity when a newly rounded Federation had sought to guard itself against a renewed colonialism, and the governing system embodied that spirit quite effectively. That was the problem.. His dark-adapted eyes sting briefly from the glare.. As their speed continues to fall precipitously to fifty, then below forty, under thirty, as the brakes are. "Because she knows what she's talking about, right?" Bernard said.. "How is Kalens's wife?" Sirocco asked Hanlon.. Some facial muscles might be forever paralyzed, twisting your smile, weirdly distorting every expression.. "And I was a wiseass." .she saw more in Micky's face than she cared to see. She switched on the light above the sink, returning. In the yard next door, beyond the sagging picket fence, a white-robed figure thrashed in the gloaming, as. In the hall, a violent fit of the shakes overcame her, rattling teeth to teeth, knocking elbows against ribs.. small, though it isn't beyond the realm of possibility..
