But he had come back home to Gont, to Re Albi, with his wizard's staff, and kicked his shoes off. He stood still and felt the dust and rock of the cliff-top path under his feet, and the cliffs under that, and the roots of the island in the dark under that. In the dark under the waters all islands touched and were one. So his teacher Ard had said, and so his teachers on Roke had said. But this was his island, his rock, dust, dirt. His wizardry grew out of it. "My mastery is here," the boy had said, but it went deeper than mastery. That, perhaps, was something Dulse could teach him: what went deeper than mastery. What he had learned here, on Gont, before he ever went to Roke..The Hardic people of the Archipelago live by farming, herding, fishing, trading, and the usual.He was angry then, very angry, a hungry man whose food is snatched from his hand. Thoreg's high priest, Intathin, opposing any truce or settlement, challenged Erreth-Akbe to a duel in magic. Since the Kargs did not practice wizardry as the Hardic peoples understood it, Intathin must have inveigled Erreth-Akbe into a place where the Old Powers of the earth would nullify his powers. A long robe of Lorbanery silk, scarlet, embroidered in gold and black with runes and symbols, and a wide-brimmed, peak-crowned hat made him seem taller than a man could be. Otter did not need to see his clothes to know him. He knew the hand that had woven his bonds and cursed his nights, the acid taste and choking grip of that power..years old. Celebrate it!". "Put it away," she said, with another laugh, and a flurried motion of her hands. "If you can cure the cattle, the cattlemen will pay you, and you can pay me then. Call that surety, if you like. But put it away, sir! It makes me dizzy to look at it. -Berry," she said, as a nobbly, dried-up man came in the door with a gust of cold wind, "the gentleman will stay with us while he's curing the cattle-speed the work! Why is it so? Are all women incapable of understanding? Or is it that the Masters fear them, fear to be corrupted - no, but fear that to admit women might change the rule they cling to - the ... purity of that rule.".Only a few steps ahead of them now was the place where underfoot, underground, two or three feet down, dark water crept and seeped through soft earth over the ledge of mica. A litter of walnut shells fell from his lap, and he

"I was told there's a murrain among the cattle here." Now that he wasn't all locked up with cold his voice was beautiful. He talked like the tale-tellers when they spoke the parts of the heroes and the dragonlords. Maybe he was a teller or a singer? But no; the murrain, he had said. "Memory, memory," Hemlock said. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." From the dense, sun-shot darkness of the trees a stream ran out, green-banked, with many brown trodden places where cattle and sheep went down to drink or to cross over. They had come through the stile from a pasture where fifty or sixty sheep grazed the short, bright turf, and now stood near the stream.
