The cat's dreams came into his mind, in the low fields where he spoke.The Changer and a thin, keen-faced old man standing beside him nodded in agreement. The Master Hand said, "Irian, I am sorry. Ivory was my pupil. If I taught him badly, I did worse in sending him away. I thought him insignificant, and so harmless. But he lied to you and beguiled you. You must not feel shame. The fault was his, and mine." .IT WAS RAINING AGAIN, and the wizard of Re Albi was sorely tempted to make a weather spell, just a little, small spell, to send the rain on round the mountain. His bones ached. They ached for the sun to come out and shine through his flesh and dry them out. Of course he could say a pain spell, but all that would do was hide the ache for a while. There was no cure for what ailed him. Old bones need the sun. The wizard stood still in the doorway of his house, between the dark room and the rain-streaked open air, preventing himself from making a spell, and angry at himself for preventing himself and for having to be prevented..direction of the gate, slowly; it was not a pleasant moment, but he seemed not to notice me. And I wish you wouldn't go north." .The rain had ceased, though mist still hid the peak and shreds of cloud drifted through the high forests. Dulse was not a tireless walker like Silence, who would have spent his life wandering in the forests of Gont Mountain if he could; but he had been born in Re Albi and knew the roads and ways around it as part of himself. He took the shortcut at Rissi's well and came out before midday on Semere's high pasture, a level step on the mountainside. A mile below it, all sunlit now, the farm buildings stood in the lee of a hill, across which a flock of sheep moved like a cloud-shadow. Gont Port and its bay were hidden under the steep, knotted hills that stood above the city.."How do I get out of here?" By the time he opened the door of Master Hemlock's house he was reciting lists of names, or wondering what would be for dinner, for he was hungry most of the time. Not till he could take an hour and run back down to the docks could he think of her..from even farther. Irian stood up slowly. She did not speak, but looked down the path, and then.craft. Her heart began to go at a carthorse gallop. She followed him through the maze of corridors to a dark-walled room with a row of high pointed windows. A group of men stood there, and every one of them turned to look at her as she came into the room..The wizard who called himself Gelluk and the pirate who called himself King Losen had worked together for years, each supporting and increasing the other's power, each in the belief that the other was his servant..wondered what "singing" meant -- perhaps "you're kidding me"?.Ivory smiled. There was some mystery or shame connected with Ard. Though he was talkative, for a wizard, Heleth was silent as a stone about some things. Ogion, who respected silence, had never asked him about his teacher..always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's.up. What I can tell you is that it seems old Early is late coming home. Hmm, hmn," he went, pleased with his joke. "Late coming home," he repeated, and got up. Women sat together by the fire in the lonely farmhouses; people gathered round the hearths in Thwil Town. They listened to the wind blow and the rain beat or the silence of the snow. Outside Thwil Bay the sea thundered on the reefs and on the cliffs all round the shores of the island, a sea no boat could venture out in. "I'll keep the door," Medra said. Though like any power they could be perverted to evil use in the service of ambition (as was the Terrenon Stone in Osskil), the Old Powers were inherently sacral and pre-ethical. During and after the Dark Time, however, they were feminised and demonised in the Hardic lands by wizards, as they were in the Kargad Lands by the cults of the Priestkings and the Godkings. So by the eighth century, in the Inner Lands of the Archipelago, only village women kept up rituals and offerings at the old sites. They were despised or abused for doing so. Wizards kept clear of such places. On Roke, itself the center of the Old Powers in all Earthsea, the profoundest manifestations of those powers-Roke Knoll and the Immanent Grove-were never spoken of as such. Only the Patterners, who lived all their lives in the Grove, served to link human arts and acts to the older sacredness of the earth, reminding the wizards and mages that their power was not theirs, but lent to
