say it. And the rest is silence." Then he was back in himself, with the fierce hurt in his arm and hip and head, sick and dizzy in people, and by us, if we were to change certain ways of seeing and understanding." "I don't know. I'm after bigger prey." wizards who worked for such men as Losen, letting fear or greed pervert magic to evil ends..All the way down the spinning, reeking stone stairs he talked, and Otter tried to understand.. "Once in his lifetime, if he's lucky, a wizard finds somebody he can talk to." Nemmerle had said. dragons are "creatures of wind and fire," who drown if plunged under the sea. But they have no toward me; they had to separate to let me through. I was buffeted. Without realizing it, I stepped. "Oh, bonses! Do you want a bons?" Hemlock was glad to see a bit of fire in the boy. "They are one another's family," he said..As she went about her work in the kitchen, Hawk lent her a hand now and then in the most natural way, so that she began to wonder if men from foreign parts were all so much handier about the house than the men of the Marsh. He was easy to talk with, and she told him about the curer, since there was nothing much to say about herself..During the voyage, however, he talked several times with Dragonfly, which made Ivory a bit uneasy. Her ignorance and trustfulness could endanger her and therefore him. What did she and the bagman talk about? he asked, and she answered, "What is to become of us." She's called Rose, Rowan's daughter." He broke free, stood up, stooping; neither of them could stand straight in the low cabin..after you?"..pause to "embrace his heart's brother or greet his home." Taking dragon form himself, he flew to..She left him standing at the waymeet, on the level ground, and walked up the hill path for a little way, a few strides. She turned and looked back down at him. "What keeps you from the hill?" she said..you do, either, ever. So go!" "It's never enough," Mead said. "And what can anyone do alone?" Half San's herd was dead. Alder would not say how many head he had lost. The bodies of cattle were." Irian of Way, my lords," said the Doorkeeper. They were all silent. He motioned her to come farther into the room. "The Master Changer you have met," he said. He named all the others, but she could not take in the names of the masteries, except that the Master Herbal was the one she had taken to be a gardener, and the youngest-looking of them, a tall man with a stern, beautiful face that seemed carved out of dark stone, was the Master Summoner. It was he who spoke, when the Doorkeeper was done. "A woman," he said..Golden owned the mill that cut the oak boards for the ships they built in Havnor South Port and.. "Oh, yes, since he's cured half the herds and got paid six coppers for it, time for him to go, right enough! I'll have him here as long as I choose, and that's the end of it." He could eat only in the cell, where they took his gag off. Bread and onions were what they gave him, with a slop of rancid oil on the bread. Hungry as he was every night, when he sat in that room with the spellbonds upon him he could hardly swallow the food. It tasted of metal, of ash. The nights were long and terrible, for the spells pressed on him, weighed on him, waked him over and over terrified, gasping for breath, and never able to think coherently. It was utterly dark, for he could not make the werelight shine in that room. The day came unspeakably welcome, even though it meant he would have his hands tied behind him and his mouth gagged and a leash buckled round his neck..And there are songs, old lays and ballads from small islands and from the quiet uplands of Havnor.. "He told me what it's like," Dragonfly said. "You walk up through the town, Thwil Town. There's a Dulse knew better than to ask for explanation. The need to speak such a spell could not come often; the chance of his ever having to use it was very slight. He let the terrible spell sink down in his mind and be hidden and layered over with a thousand useful or beautiful or enlightening mageries and charms, all the lore and rules of Roke, all the wisdom of the books Ard had bequeathed him. Crude, monstrous, useless, it lay in the dark of his mind for sixty years, like the cornerstone of an earlier, forgotten house down in the cellar of a mansion full of lights and treasures and children..Grove. She did not look back..harm. Only truth." "Azver," she said. "Thank you." red ridge of the mountain in the dawn..he had transformed brick into butterfly. She could not dance with him, she could not play with..The daughter of "the wise king Thoreg" rescued Erreth-Akbe from this trance or imprisoning spell and restored him his strength. He gave her the half of the Ring of Peace that remained to him. (From her it passed through her descendants for over five hundred years to the last heirs of Thoreg, a brother and sister exiled on a deserted island of the East Reach; and the sister gave it to Ged.) Intathin kept the other half of the broken Ring, and it "went into the dark"-that is, into the Great Treasury of the Tombs of Atuan. (There Ged found it, and rejoining the two halves and with them the lost Rune of Peace, he and Tenar brought the Ring home to Havnor..) drunk by his cold hearth..wondered, it being winter and all, and you being on the roads. But with that horse, I thought you..Thoreg's daughter. As an old woman she gave this to the young wizard Ged, shipwrecked on her..Thirty years before, the pirate lords of Wathort had sent a fleet to conquer Roke, not for its wealth, which was little, but to break the power of its magery, which was reputed to be great. One of the wizards of Roke had betrayed the island to the crafty men of Wathort, lowering its spells of defense and warning. Once those were breached, the pirates took the island not by wizardries but by force and fire. Their great ships filled Thwil Bay, their hordes burned and looted, their slave takers carried off men, boys, young women. Little children and the old they slaughtered. They fired every house and field they came to. When they sailed away after a few days they left no village standing, the farmsteads in ruins or desolate..writers. . . Claiming no title or court privilege in the days of the kings, through all the dark years after Maharion fell

they held their land and people with firm hands, putting their gains back into the land, upholding some sort of justice, and fighting off petty tyrants. As order and peace returned to the Archipelago under the sway of the wise men of Roke, for a while yet the family and their farms and villages prospered. That prosperity and the beauty of the meadows and upland pastures and oak-crowned hills made the domain a byword, so that people said, "as fat as a cow of Iria", or, "as lucky as an Irian". The masters and many tenants of the domain added its name to their own, calling themselves Irian. But though the farmers and shepherds went on from season to season and year to year and generation to generation as solid and steady as the oaks, the family that owned the land altered with time and chance. The four Kargad islands are mostly arid in climate but fertile when watered and cultivated. The Kargs have maintained a society that appears to be little influenced, except negatively, by their far more numerous neighbors to the south and west. Nine Masters only the Patterner and the Doorkeeper protested; they were overruled. For more than
