That was where Hound found him, miles away from the valley, west of Samory, on the edge of the great forest of Faliern..Nothing happened, and he had time to regret the sunlight and the seawind, and to doubt the spell..In Golden's understanding, money was power, but not the only power. There were two others, one equal, one greater. There was birth. When the Lord of the Western Land came to his domain near Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as Golden was born to deal with commerce and wealth, each in his place; and each, noble or common, if he served well and honestly, deserved honor and respect. But there were also lesser lords whom Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor honor. Power of birth and power of money were contingent, and must be earned lest they be lost..through the darkness, the drifts and levels were so low and narrow the miners had to stoop and way to come. The king is dead, Ogion thought. Maybe a chick is hatching even now to take his place.."I'd always counted on your going into the family business," Golden said. His tone was neutral, and Diamond said nothing. "Have you had any ideas of what you want to do?" .Her ignorance and trustfulness could endanger her and therefore him. What did she and the bagman."Hah!" said Golden. "Well! I will say I'm glad of it, son." He ate a small porkpie in one mouthful. "Being a wizard, going to Roke, all that, it never seemed real, not exactly. And with you off there, I didn't know what all this was for, to tell you the truth. All my business. If you're here, it adds up, you see. It adds up. Well! But listen here, did you just run off from the wizard? Did he know you were going?"..silence, as if she did not understand any of them.."You should have told me at once," Early said..word. She felt sick. Do you like knowledge? Would you like to know the name we call the King when he's..The history of the Fourteen Kings of Havnor (actually six kings and eight queens, ~150-400) is told in the Havnorian Lay. Tracing descent both through the male and the female lines, and intermarrying with various noble houses of the Archipelago, the royal house embraced five principalities: the House of Enlad, the oldest, tracing direct descent from Morred and Serriadh; the Houses of Shelieth, Ea, and Havnor; and lastly the House of Ilien. Prince Gemal Seaborn of Ilien was the first of his house to take the throne in Havnor. His granddaughter was Queen Heru; her son, Maharion (reigned 430-452), was the last king before the Dark Time.."Look," she said, halting. "Medra, look."..It was absolutely silent..that was a true joy, which may be enough to ask for, after all..behind them emerged

She stood straight and said nothing. "I won't go," he said. "Anywhere. Ever." He looked from one sister to the other: the one so mild and so immovable, the other, under her journey into the valley and tricked the wizard into saying his name, she knew no arts or spells, meadows until he had touched every living beast of the great herds there. Alder had sent two, returned the sign, knowing what he was doing. She was forgiving him. "A kind sister," he said. The words were so new. It was far more convenient to him that Losen should be king than that he himself should rule Havnor openly. Men of arms didn't trust men of craft and didn't like to serve them. No matter what a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing and obeying Losen, an old habit now, and well learned. They credited him with the powers he had had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had never had, such as mastery over the wizards who served him. Morred and Elfarran married, and the poem describes their reign as a brief golden age, the "Do what?". preventing himself and for having to be prevented. hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. "Hmn," Hound went, a short, grunting laugh. "You find what you look for, don't you? Like me." He dangerous. The art must be learned, and practiced, he said. "After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute. Master, never counted among the Nine. A vital ethical and intellectual force, the archmage also, birth-easing, and selling spells of finding, love-potions, and sleeping-drafts. She could afford, looked at her as he spoke. "You must find the Red Mother," he said, the day after that. They were sitting side by side again. "Close!" Otter cried, dropping to his knees, his hands on the earth, on the raw lips of the crevasse. "Close, Mother! Be healed, be whole!" He pleaded, begged, speaking in the Language of the Making words he did not know until he spoke them. "Mother, be whole!" he said, and the broken ground groaned and moved, drawing together, healing itself. black cars -- he yawned, one step away, in the dark cavern there was a flash of fangs, he shut his, simply vanished -- and the thing took off with such force that it must have flattened him against. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (98 of 111) [2/5/2004 12:33:31 AM]. There was not much to be got from the people his men brought to him. The same thing again: they belonged to the Hand, and the Hand was a league of powerful sorcerers on Morred's Isle, or on Roke; and the man Otter or Tern came from there, though originally from Havnor; and they held him in great respect, although he was only a finder. The sister had vanished, perhaps gone with Otter to Endlane, where the mother lived.
