To Your Broadcast Bodies, Get Yourselves, PHILIP JOSE FARMER. We're in the Central Arena, the architectural pride of Denver District. This is the largest gathering place in all of Rocky Mountain, that heterogeneous, anachronistic strip-city dingling to the front ranges of the continental divide all the way from Billings down to the southern suburb of El Paso..over Amos' wet clothes?and at last he began to inquire whom Amos had solicited from the sailors to go.But whenever dusk began, the girl Hinda would go to the edge of the clearing and call out in a high, searching. Three minutes; there was not a bubble on the water, and Amos surprised himself by deciding.It's gonna be a hell of a concert..Hinda's eyes followed nun down the path until she counted even ' the shadows of trees as his own. When she was certain he was gone, she opened the cottage door and went in. The cottage was suddenly close and dark, filled with the musk of deer..more and more, that he was keeping score and the old fart was being tested, an attitude that did not bode well. Finally, with ten minutes left on the clock, he'd just up and left, which was not, strictly speaking, a violation. It did imply that some kind of closure had been achieved, which definitely was not the case; he'd panicked, pure and simple. A fiasco from which he'd naturally feared the worst in the form of a letter addressed to Dear Applicant. ("We regret to inform you, etc. . . .") But possibly the old fart had been making things deliberately difficult, testing him, possibly his reactions hadn't been that entirely inappropriate. Possibly he'd passed.."These 'fruit' are full of compressed gas," he told them. "We have to open up another, carefully this.^Tomorrow I'm going back to Center St. and take the exam again."..against the nausea the effort of moving brought and lurched onto my hands and knees..man the mirror. "Now we only have a third to go, if I remember right. When do I start looking for that?" "Yeah," says Jain..well cut your throat. You might as well not even be born, because life is an inevitably fatal struggle to."An aubade is a traditional verse-form that a lover addresses to his (or her) beloved at dawn, when one of them is leaving for work."..waiting for her at Intensity Five. She never showed. By mid-February, he'd begun to be alarmed. Early.of Examiners, he wondered if maybe he'd managed to squeak through. He didn't see how he could have.."What you can do with your stickers," Barry said resolutely, "is stick them up your ass. Harry Spinner was on the floor behind the bed, scrunched down between it and the wall. The almost colorless chenille bedspread had been pulled askew exposing part of the clean, but dingy, sheet. All I could see of Harry was one leg poking over the edge of the bed. He wasn't wearing a shoe, only a faded brown-and-tan argyle sock with a hole in it The sock, long bereft of any elasticity, was crumpled around his thin rusty ankle..another tree (of a different variety even), where it can grow and flourish. In either case, it is an organism.Marvin Kolodny frowned?an ingratiating, boyish frown. "Are you sure you're being entirely honest with yourself, Barry? Few people are completely willing to talk about something. We've all got hobbyhorses. What was your wife interested in? Couldn't you have talked about that?". "Friendship is a rare thing these days," said Amos. Strange?did every race have its belief in such creatures? Could there be some grotesque, distorted element of truth behind all these old wives' tales?.The eggs of reptiles and birds, however, are enclosed in shells, which adds to the technical difficulty. The eggs of mammals are very small, very delicate, very easily damaged. Furthermore, even if a mammalian egg has had its nucleus replaced, it would then have to be implanted into the womb of a female and allowed to come to term there..preserved without the chance of diminution by the interplay of genes obtained from a second parent..The man rose then, and Hinda marveled at the height of him, for he was as tall as the cottage door and his hands were grained tike wood..go to the theater before coming back. That persuaded her.."I'm not Selene," Amanda whispered..He stopped, bunking at me. He looked at Amanda's horrified expression and frowned uncertainly..Everyone else in the tavern came running outside too. As they stared at the shiny, frozen hunk, something moved inside it, and they saw it was the form of a lovely girl. It was Lea, who had appeared to them in the pool.."That's mean, Janice," I groaned.."I'm not sure. Marty thinks there's a chemical metabolism in the upper part of the shell, which I haven't explored yet. But I can't really say

if it's alive in the sense we use. I mean, it runs on wheels! It has three wheels, suited for sand, and something that's a cross between a rubber-band drive and a mainspring. Energy is stored in a coiled muscle and released slowly. I don't think it could travel more than a hundred meters. Unless it can recoil the muscle, and I can't tell how that might be done." "Well be able to see each other all we like in January." "January." She groaned the word. "That's forever. Kiss me good\* by, Gordy." But that night, as the rain poured over the deck, and the drum-drum-drumming of heavy drops lulled everyone on the ship to sleep, Amos hurried over the slippery boards under the dripping eaves of the wheelhouse to the second hatchway, and went down. The lamps were low, the jailor was huddled asleep in a corner on a piece of grey canvas, but Amos went immediately to the bars and looked through..private property.."Because we were expected," Song said, still looking away from them. She looked back and forth from Lang to Crawford, her face expressing."That's what I want to do in the morning," Song said. "Unless Mary will let us take a look tonight?" She said it hopefully, but without real expectation. Mary Lang shook her head decisively..Crawford couldn't tell how serious she was. He shrugged it off..Together they started through the marsh and muck. "You know," said Amos, stopping once to look at a grey spider web that spread.charger. If he did, the only thing I could do was confront him with what Td found out. And then what, Mallory, a big guilty confession? "For another, a good part of our suits. Song, watch it, don't step on that thing. We don't know how powerful it is or if it'll eat the plastic in your boots, but we'd better play it safe.
