

## LARRY A NOVEL OF CHURCH RECOVERY

"So everyone becomes a law unto himself," Merrick concluded, "Judging by the sound of it, the chopper is heading southwest, following the interstate. This is not good..It seems to be. How about Borftein and Wellesley?" Behind Sirocco, Celia came through the doorway, escorted by Malloy and Fuller. Stanislaw was behind, carrying a field compact.. "I'm not sure I could have resisted him, either..". "For a few hours maybe..".Sterm snorted. "I need neither. The same forces that will subdue Chiron will subdue the people also." His eyes flickered over Celia's body momentarily. "And they will submit because they, like you, have an instinct to survive..".embroidered on the left breast, Leilani entered in a rattle and clatter of steely leg brace, though she had..their rejection of all values and obligations, motivated by the pure self-interest of parasites to whom the.. "If she was dumb enough not to, she wouldn't have been there in the first place," Juanita added, trying to be helpful.. "After twenty years on the same ship? That's not possible, surely..".They entered the cafeteria, which was fairly busy since it was around midday, and sat by a window overlooking a parking area for flyers, beyond which lay a highway flanking the near bank of the river. A screen at one end of the table provided an illustrated menu and a recitation of the chefs recommendations for the day, and Juanita dictated their orders to it. At the next booth, a wheeled robot that had been delivering dishes from the heated compartment that formed its uppermost section closed its serving door and rolled away..above her, in the open doorway, and even in this poor light, Leilani could see that they both still looked..congressman as they enjoyed the spectacle in the street below..He stared up at her, searching for a reply and finding none. Each time that..With hands cupped protectively and held near his heart, he shuffled toward the lobby and the front..Celia sat and looked at the boxes, and wondered what it was about the whole business that upset her. It wasn't so much the spectacle of Mrs. Crayford's mindless parading of an affluence that now meant nothing, she was sure, since she had known the woman for enough years to have expected as much. Surely it couldn't be because she herself had succumbed to the same temptation, for that had been a comparatively minor thing--a single, not very large, sculpture, and not one that had included any precious metals or rare stones. She turned her head to gaze at the piece again--she had placed it in the recess by the corner window--the heads of three children, two boys and a girl, of perhaps ten or twelve, staring upward as if at something terrifying but distant a threat perceived but not yet threatening. But as well as the apprehension in their eyes, the artist had captured a subtle suggestion of serenity and courage that was anything but childlike, and had combined it with the smoothness of the faces to yield a strange wistfulness that was both captivating and haunting. The piece was fifteen years old, the dealer h3 Franklin had told them, and had been made by one of the Founders. Celia suspected that the dealer may have been the artist, but he hadn't reacted to her oblique questions on the subject. Were the expressions on those faces affecting her for some reason? Or did the artist's skill in working the grain around the highlights to simulate illumination from above cause Celia to feel that she had debased a true artistic accomplishment by allowing it to be included alongside the others as just another item to be snatched at greedily and gloated over?.. "Sometimes names are destiny. Look at you. Two pretty names, and you're as gorgeous as a..Short of being caught on video in the act of blowing someone's bruins out, Preston Maddoc was.. They look as if they'll be okay though. The others didn't know a thing about it..".Then Colman's communicator started bleeping. Bernard Fallows was calling from the Communications Center. "I guess you did it," he said. "But it's not over yet. We've found out where Sterm is..".Colman's top-echelon, part-time mistress was Celia Kalens..draws a smile from him. And none of it was going to change--ever. Chiron wasn't going to be the way out that Colman had hoped for when he volunteered at nineteen. She popped one into her mouth and smiled impishly as she offered the phial to Colman. "It's Saturday, why not live it up a little?" He scowled and shook his head. Anita pouted. "They're good. Maybe you'd better leave that stuff here for now, Jay. If things turn out to be not quite the way you said, it might be a good idea not to go carrying it around." He saw Jay nodding vigorously, and tossed up his hands. "Why not? :If.Driscoll didn't have a ready answer to that. Besides, he was too conscious of the desire for a cigarette to be philosophical. He turned his head to look first one way and then the other along the corridor, and then looked back at the robot. "Can you tell if any of our people are near here?".Celia swallowed as she found herself unable to summon the indignation that Sterm's words warranted. "What makes you think it isn't?" She avoided his eyes. "Why else would I be here?.grass, she edged backward.."Logging on early," Waiters replied. "Merrick wants to talk to you for a minute before you go off duty. He told me to tell you to stop by the ECD. You can take off now and see him on the company's time." He moved over to the console and nodded at the array of screens. "How are we doing? After a pause he turned to face her again. "So it doesn't scare you anymore, huh?".At one time, she'd been proud of her beauty. Under the tall chest of drawers, nothing flopped, nothing hissed..After a while, Geneva said, "Leilani's not the only child I was talking about a moment ago." "I know."Everybody looked at Colman again, this time with a new interest. A different mood was taking bold of the room, and it was affecting the people on the screen, who were leaning forward and listening intently. for seizing key points on the surface of Chiron in the event of hostilities, and the intensive training in antiterrorist and counterterrorist operations that had been initiated. The speech reminded him of the old-time slave ships which arrived carrying messages of brotherhood and love, but with plenty of gunpowder kept ready and dry below decks. Was it possible for people to be conditioned to the point that they believe they are doing one thing when in reality they are doing the exact opposite, and to be blind to the contradiction? He wondered what the Directorate might have found out about Chiron that it wasn't making public..vehicles, the trucker says,. "No. It'd be your solution, not mine." Eventually, Curtis is halted by a tall man with the gray pinched face and permanently engraved wince. Bernard sighed and forced his voice to remain reasonable. "Now, come on ... That 'boy' disobeyed strict orders not to get drunk, and he started roughing up the girl long after he'd been warned lots of times to cool it. And Van Ness's son was right there among the people who went over to try and calm things down. Colman looked away in a daze. Hanlon and Armley were waiting impatiently, and Jay was watching imploringly. He thought furiously. Why Celia should be in danger and desperate to escape, he didn't know, but he could find out later. If he said he had to get away for a few hours. Sirocco would cover for him, so that was okay. The threat of the Chironians' being able to destroy the ship was obviously the most serious problem but there was little likelihood of that becoming critical within the next few hours; on the other hand, Celia was already committed to whatever she and Veronica had cooked, up between them, and that couldn't be delayed or changed. So Celia would have to come first. Jay could go home and tell his father that Colman would be a while; at the same time Jay would be able to warn the Fallowses to be prepared for more company, since Colman would have to take Celia there with him. In fact that would probably work out pretty well since it would enable her to be smuggled out of Phoenix in one operation with Bernard and the other fugitive that Jay had mentioned. Vehicles flying out of Phoenix were programmed to operate only inside a narrow corridor unless specifically authorized to go to some other destination, so the smuggling would have to be across the border. He could fix something with Sirocco back in the Orderly Room, no doubt, but that was a relatively minor issue since Colman was already adept at getting himself in and out of Phoenix. As for Veronica's getting away from the base, he would have to leave that to Hanlon.. "How can they when there are hardly any around to start with?" Juanita asked him. "We told you--if they're like that, they don't last very long." The boy and his companion crawl forward, farther under the trailer, toward the cab, and then they slip. Sincerely, he said, "Damn, you would have been a funny Minnie." "You're probably just like my dad..Chapter 22.
