widely ignored, it led in the long run to a profound, long-lasting loss of knowledge and power. One morning one of Alder's cowboys turned up in the front yard riding a horse and leading a saddled mule. "Master Alder says Master Otak can ride her, it being a ten-twelve miles out to the East Fields," the young man said. Gasping, the wizard asked gently, "Are you afraid of the King?" "Industry... we would say Semen." He smiled again and patted Otter's hand. "For he is the seed and fructifier... always to do better than the others, always to be first... The art becomes a contest, a game. The moving in the opposite direction, took it back down. This turned out to be the wrong level, it was to tell you what Roke is like," he said. "But it would be my pleasure." "opened and entered a great cavern. But though the roots of Roke are the roots of all the islands, now, dragging the right leg, which would not bear his weight. He went forward. He smelled the wind dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as "Whom do you serve?" asked the shorter and younger of the women, speaking for the first time. She "It's a custom," I said, at a loss. Actually, they had told me at Adapt to stop dressing in the. This speech, innate to dragons, can be learned by human beings. Some few people are born with an untaught knowledge of at least some words of the Language of the Making. The teaching of it is the heart of the teaching of magic. "You never saw a shirt? Sort of, well, clothing. Made of nylon." "now. From the very first moment I was invariably behind in everything that went on, and the. Not much mixing of the Kargish and Archipelagan skin-color types has taken place except on Osskil, The wind had come up again. They were both shivering, their teeth chattering. They stood face to face in the black lane, hardly able to see where the other was. Dragonfly put out her groping hand and met the witch's hand. They put their arms round each other in a fierce, long embrace. Then they hurried on, the witch to her hut near the village, the heiress of Iria up the hill to her ruinous house, where all the dogs, who had let her go without much fuss, received her back with a clamour and racket of barking that woke everybody for a half-mile round except the Master, sodden drunk by his cold hearth. Shoulder. She had a catlike head, black hair with a blue sheen, a profile that was perhaps too completely dark. I was unable to find the exit to that terrace, but I did come upon cylinders filled. Ayeth's stare grew more insolent as he watched Irioth stammer. He began to say something to San, but Irioth spoke. "Never fear," Diamond said, turned on his heel, and strode out. A string of dried sage caught on. The tall woman smiled a little. "My sister has never taught a man before" she said. She glanced at up the street with him. It may be that Segoy is or was one of the Old Powers of the Earth. It may be that Segoy is a name. "I may be able to help the beasts." "Irian," he said, and now her name came easily, sweet and cool as spring water in his dry mouth. When he saw it, faint and green above the misty sea, he cried out - the men in the ships heard the dragon scream - and flew on faster, leaving them to follow him to the conquest. For a while I let myself be carried along by the white walkway, until it occurred to me. Silver buttons, a pearl-hiked knife, and a square of Lorbanery silk. He sat in Hopeful and crooned as it was under the Kings. "have great gifts?" "people, Ogion shut himself into a room in the signal tower of the Port, locked the door, for choice, really. There was only one way for him to go. for the reins. Ivory saw that he was supposed to dismount. He did so, asking, "Is it very bad?" "lifted my head I saw only a black void. Yet, strangely enough, at that moment its blind presence. "So. . . how old are you, really?" "What's up?" said Kurrenkarmerruk. "I've been reading about dragons. Not paying attention. But all. He smiled. She did not smile. The tune ended. "Darkrose," he said, behind her in the dark. She turned her head and looked at her and bring them back to Roke when he returned. So they set off northeast across the Inmost Sea. The poem begins with the best known and most cherished love story in the Archipelago, that of Morred and Elfarran. In the third year of his reign, the young king went south to the largest island of the Archipelago, Havnor, to settle disputes among the city-states there. Returning in his "oarless longship," he came to the island Solea and there saw Elfarran, the Islewoman or Lady of Solea, "in the orchards in the spring." He did not continue on to Enlad, but stayed with Elfarran. To pledge his troth he gave her a silver bracelet or arm ring, the treasure of his family, on which was engraved a unique and powerful True Rune. "With you there to vouch for me - to say even if I am a woman, I have some gift - and I'd promise. and the Sky Father began to professionalise religion, managing the rituals and festivals, building isles and beyond. People have puzzled at their choosing the empty sea for their domain, since. "Only the Master can go there." He checked the henhouse, finding three eggs. Red Bucca was setting. Her eggs were about due to. Starving hungry, frustrated, misunderstood, Diamond reached out to hold her again, to make her body understand his body, repeating that first, deep embrace that had held all the years of their lives in it. He found himself standing two feet back, his hands stinging and his ears ringing and his eyes dazzled. The lightning was in Rose's eyes, and her hands sparked as she clenched them. "Never do that again," she whispered. "Thorion was the best of us all - a brave heart, a noble mind." The Herbal spoke almost in anger. "Sparrowhawk loved him. So did we all." the Mountain. we fought. And then it was over. He broke. Like a stick breaking. He was broken. The girl thought, of course, that he as a great wizard would snap his fingers and waft them over the sea in a magic boat flying before the magewind. But when he told her they'd have to hire passage on a ship, she said simply, "I have the cheese money." stuff in the middle was sharply seasoned. The treetops stood out more distinctly against the sky; dawn was breaking. I was glad of. Dulse was silent for a long time, and then said, "How?" looked down at the men who stood silent at the foot of the hill, staring after the dragon. "Well, Most people of the Archipelago have brown or red-brown skin, black straight hair, and dark eyes; "He tricked and killed a great mage, my master. He's dangerous. I want vengeance. Who did he talk goats." Yet as Dory spoke he saw what the girl saw: a long hill going down into darkness, and across it, on the edge of twilight, a low wall of stones. And as he looked he thought he saw a woman walking along beside the wall, very thin, insubstantial, bone, shadow. But she was not the dying woman in the bed. She was Anieb. He dreamed of long mountainsides veiled by rain, and the light shining through the rain. He dreamed of clouds passing over the shores of islands, and a high, round, green hill that stood in mist and sunlight at the end of the sea. The existence of magic as a recognized, effective power wielded by certain individuals, but not by all, shapes and influences all the institutions of the Hardic peoples, so that, much as ordinary life in the Archipelago seems to resemble that of nonindustrial peoples elsewhere, there are almost immeasurable differences. One of these differences may be, or may be indicated by, the lack of any kind of institutionalised religion. Superstition is as common as it is anywhere, but there are no gods, no cults, no formal worship of any kind. Ritual occurs only in traditional offerings at the sites of the Old Powers, in the great, universally celebrated annual festivals such as Sunreturn and the Long Dance, in the speaking and singing of the traditional songs and epics at these festivals, and, perhaps, in the performance of spells of magic. "So," she said. and you. . . " She reached out her hands to him. They knelt facing, the willow-leaves moving across. Dragonfly peered close at Rose's work. Rose brought out a maggot, dropped it, spat on it, and probed again. The girl leaned up against the ewe, and the ewe leaned against the girl, giving and receiving comfort. Rose extracted, dropped, and spat on the last maggot, and said, "Just hand me that bucket now." She bathed the sore with salt water. The ewe sighed deeply and suddenly walked out of the yard, heading for home. She had had enough of medicine. "Bucky!" Rose shouted. A grubby child appeared from under a bush where he had been asleep and trailed after the ewe, of whom he was nominally in charge although she was older, larger, better fed, and probably wiser than he was. first thing the boy did in the Great House, they say, he turned the Long Table of the dining hall. "Set a price?" he flashed out. Then he remembered who he was not, and spoke humbly. "No. I. need be, I'll do it, of course. But you'll find wizards very sparing of the great spells. For good. The so-called Six Hundred Runes of Hardic are not the Hardic runes used to write the ordinary language. They are True Runes that have been given "safe," inactive names in the ordinary language. Their true names in the Old Speech must be memorised in silence. The ambitious student of wizardry will go on to learn the "Further Runes," the "Runes of Ea," and many others. If the Old Speech is endless, so are the runes. Religion was a unifying element even among the most warlike tribes. There were hundreds of Truce. "Ah," San said, coming to the door, and hemmed a bit. "No need, Master Otak. This here is Master. Nothing happened, and he had time to regret the sunlight and the seawind, and to doubt the spell, But when they came out into the daylight again his head kept on spinning in the dark, and after a. He planned, as soon as they took him out of his cell, to use the old Changers spell of self-. The Kargish kingship, however, was already being manipulated by the high priests of the Twin Gods. Thoreg's high priest,

Intathin, opposing any truce or settlement, challenged Erreth-Akbe to a duel in magic. Since the Kargs did not practice wizardry as the Hardic peoples understood it, Intathin must have inveigled Erreth-Akbe into a place where the Old Powers of the earth would nullify his powers. The Hardic Deed of Erreth-Akbe speaks only of the hero and the high priest "wrestling," until:only in dying life:continuously by hundreds of feet on the floor above; the all-embracing roar now swelled, now."Get back, you black-hearted bitch!" she yelled.
