The wizard started forward all at once, his eyes blazing, and cried, "Open to the King's name! I am Tinaral!" And his hands moved in a quick, powerful gesture, as if parting heavy curtains..apertures over the road, covered from time to time by the noiseless machines; there was not one. "I won't go," he said. "Anywhere. Ever..". "Ah," San said, coming to the door, and hemmed a bit. "No need, Master Otak. This here is Master Sunbright, come up to deal with the murrain. He's cured beasts for me before, the hoof rot and all. Being as how you have all one man can do with Alder's beeves, you see..." .file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (72 of 111) [2/5/2004 12:33:31 AM].emphasis on the last word, and inwardly murmured, "Avert..".Medra..He looked up. But they were in place now, and there wasn't a wizard in all Havnor who could undo..When he added that little questioning "eh?" or "neh?" to the end of what had seemed a statement it always took her by surprise. She said nothing..He was in fact a town boy, born in Gont Port. He had said nothing about himself, but Dulse had asked around a bit. The father, a longshoreman, had died in the big earthquake, when Silence would have been seven or eight; the mother was a cook at a waterfront inn. At twelve the boy had got into some kind of trouble, probably messing about with magic, and his mother had managed to prentice him to Elassen, a respectable sorcerer in Valmouth. There the boy had picked up his true name, and some skill in carpentry and farmwork, if not much else; and Elassen had had the generosity, after three years, to pay his passage to Roke. That was all Dulse knew about him..Eldest, brought Ged and Lebannen to Roke Island.. "But she was only a girl like the others, too," Mead said, and hid her face. Everyone was seated now..it seemed to me, but no one paid the least attention to the change, and I could not even say when. "So it was ordained by the first Archmage, centuries ago," said Ivory. "But ... I too

"No, nothing. And if a girl visits a man, what then?"..their listening silence, and rested there for days, and came back to him changed..All this time he and Gelluk were going on farther from the tower, away from Anieb, whose presence sometimes weakened and faded. Otter dared not try to summon her..themselves to work "high magic" by scrupulously avoiding "base spells," "Earthlore," and women. "It can do it by itself," Diamond said, and held out the fife away from his lips. His fingers danced on the stops, and the fife played a short jig. It hit several false notes and squealed on the last high note. "I haven't got it right yet," Diamond said, vexed and embarrassed..by Halkel (finding, mending, dowsing, animal healing, etc.) and some high arts (human healing..had used with her at first, before she showed him she hated it. He looked round at the girl, Dory. She did not return his gaze, watching her mother with stolid, sullen grief. Only after the woman sank into sleep did Dory move, going to help Rush, who as a friend and neighbor had made herself useful and was gathering up blood-soaked cloths scattered by the bed..in the morning light. The mare..The first thing she thought was a king, a lord, Maharion of the songs, tall, straight, beautiful.. "And perhaps because such arts have not the power they once had," he said. He did not know himself why he tried to weaken her faith in wizardry; perhaps because any weakening of her strength, her wholeness, was a gain for him. He had begun merely by trying to get her into his bed, a game he loved to play. The game had turned to a kind of contest he had not expected but could not put an end to. He was determined now not to win her, but to defeat her. He could not let her defeat him. He must prove to her and himself that his dreams were meaningless.. "Oh yes. You are uncommonly slow, young man, to recognize your own capacities." It was spoken harshly, and Diamond stiffened up a bit..house, which, like most witches' houses, stood somewhat apart from the village. "Well," she said..Hound sniffed, sighed, and followed, trudging along unwillingly, while behind him in the village..off for the Ninety Isles as soon as Tern liked..When she woke, the Master Patterner was sitting nearby, and a basket was on the grass between them..If Diamond had been born to that kind of power, if that was his gift, then all Golden's dreams and plans of training him in the business, and having him help in expanding the carting route to a regular trade with South Port, and buying up the chestnut forests above Reche -- all such plans

dwindled into trifles. Might Diamond go (as his mother's uncle had gone) to the School of Wizards on Roke Island? Might he (as that uncle had done) gain glory for his family and dominion over lord and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? Golden all but floated up the stairs himself, borne on such visions..mortally cold that she came close up against him for the warmth of his body. They stood so for a."Did you think I was one of their eunuchs? That I'd castrate myself with spells so I could be holy? Why do you think I don't have a staff? Why do you think I'm not at the School? Did you believe everything I said?".Where he went then, the songs don't tell. They say only that he wandered, "he wandered long from land to land." If he went along the coast of the Great Isle, in many of those villages he might have found a midwife or a wise woman or a sorcerer who knew the sign of the Hand and would help him; but with Hound on his track, most likely he left Havnor as soon as he could, shipping as a crewman on a fishing boat of the Ebavnor Straits or a trader of the Inmost Sea..Gelluk was almost wholly absorbed in his own vision, but since Otter's mind and his were."I don't know," Dragonfly said. "To hear about the Great House is wonderful, but I thought the people there would be - I don't know. Of course they're mostly just boys when they go there. But I thought they'd be..." She gazed off at the sheep on the hill, her face troubled. "Some of them are really bad and stupid," she said in a low voice. "They get into the School because they're rich. And they study there just to get richer. Or to get power.".After a bit Otter nodded left, away from the grey stone tower. They walked on towards a long..The Changer stared openly at her. The excited turmoil of his mind all the time he had been with Gelluk slowly quieted. From it something rose, coming close, coming clear, the image he had seen down in the mine, shadowy yet distinct: the slave in the high vault of the tower, that woman with empty breasts and festered eyes, who spat the spittle that ran from her poisoned mouth, and wiped her mouth, and stood waiting to die. This child was the son of an under-steward in the household of the Lord of Ark. Not a poor man's son, but not a child of much account. And the parents died young. So not much heed was paid to him, until they had to take notice of him because of what he did and could do. He was an uncanny brat, as they say. He had powers. He could light a fire or douse it with a word. He could make pots and pans fly through the air. He could turn a mouse into a pigeon and set it flying round the great kitchens of the Lord of Ark. And if he was crossed, or frightened, then he did harm. He turned a kettle of boiling water over a cook who had mistreated him.".Ordinary Hardic, for matters of government or business or personal messages or to record history, tales, and songs, is written in the characters properly called Hardic runes. GOLDEN WAS immensely happy and quite unconscious of it. "Old man's got his jewel back," said the carter to the forester. "Sweet as new butter, he is." Golden, unaware of being sweet, thought only how sweet life was. He had bought the Reche grove, at a very stiff price to be sure, but at least old Lowbough of Easthill hadn't got it, and now he and Diamond could develop it as it ought to be developed. In among the chestnuts there were a lot of pines, which could be felled and sold for masts and spars and small lumber, and replanted with chestnut seedlings. It would in time be a pure stand like the Big Grove, the heart of his chestnut kingdom. In time, of course. Oak and chestnut don't shoot up overnight like alder and willow. But there was time. There was time, now. The boy was barely seventeen, and he himself just forty-five. In his prime. He had been feeling old, but that was nonsense. He was in his prime. The oldest trees, past bearing, ought to come out with the pines. Some good wood for furniture could be salvaged from them. She knew that King Lebannen used his true name openly.
