exploitation. The land outlasts the empires. The conquerors may leave desert where there was. He was so distraught that when he made up his mind to call Silence he could not think of the opening of the spell, which he had known for sixty years; then when he thought he had it, he began to speak a Summoning instead, and the spell had begun to work before he realised what he was doing and stopped and undid it word by word. "No doubt that's what Alder gave you," she said. "The flint!" .file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (12 of 111) [2/5/2004 12:33:30 AM]. After Golden had gone out, she found her son in the counting-room going through ledgers. She looked at the pages. Long, long lists of names and numbers, debts and credits, profits and losses. "So when the Windkey returned, we were nine again. But divided. For the Summoner said we must meet again and choose an Archmage. The king had had no place among us, he said. And "a woman on Gont", whoever she may be, has no place among the men on Roke. Eh? The Windkey, the Chanter, the Changer, the Hand, say he is right. And as King Lebannen is one returned from death, fulfilling that prophecy, they say so will the Archmage be one returned from death." and in its walls were thin, crimson, crumbling beds of cinnabar... He made no sign. He thought. Thirst: and with it pain. Thirst, and the sound of water running..her ear..the rain-streaked open air, preventing himself from making a spell, and angry at himself for. A pause. "This," Diamond said. His voice was level. He looked neither at his father nor his. "You didn't say it." witchery. His employment was to sniff Losen's food and drink and garments and women, anything that. They were both shy. When Medra took her hand his hand shook, and Ember, whose name was Elehal, turned away scowling. Then she touched his hand very lightly. When he stroked the sleek black flow of her hair she seemed only to endure his touch, and he stopped. When he tried to embrace her she was stiff, rejecting him. Then she turned and, fierce, hasty, awkward, seized him in her arms. It wasn't the first night, nor the first nights, they passed together that gave either of them much pleasure or ease. But they learned from each other, and came through shame and fear into passion. Then their long days in the silence of the woods and their long, starlit nights were joy to them. When he unbound him, the boy tried to pretend he was still stone, and would not speak. Early had to go into his mind, in the way he had learned from Gelluk long ago, when Gelluk was a true master of his art. He found out what he could. Then the boy was no good for anything and had to be disposed of. It was humiliating, again, to be outwitted by the very stupidity of these people; and all he had learned about Roke was that the Hand was there, and a school where they taught wizardry. And he had learned a man's name. Diamond had run away..shadow under the throat of her shirt..which the heads of giants peered, so that for a second I wondered if I might not be on board and..softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep." So it was ordained by the first Archmage, centuries ago," said Ivory. "But ... I too have wondered." Once, when they had gone a long way and the trees, dark evergreens she did not know, stood very high about them, she heard a call - a horn blowing, a cry? - remote, on the very edge of hearing. She stood still, listening towards the west. The mage walked on, turning only when he realized she had stopped. "She will when the time comes. But she has no part to play in your decision, Diamond. Women know light on crockery, the hearth stones, the table. But nobody sat at the table. His enemy was gone." And I in my tower," said the Namer. "And you, Herbal, and the Doorkeeper, are in the trap, in the. Diamond had no idea what to say. The idea of its being up to him had not occurred to him. "Do you think I ought to?" he asked at last. Though he seldom left the city, Early prided himself on his knowledge of all the Archipelago, gleaned from his sailors' reports and the marvelous ancient charts kept in the palace. He studied them nights, brooding on where and how he might extend his empire.. Mage Ath. Long ago. Before he went into the west. All my foremothers were wise women. He stayed cool, as if a mountain stream ran through them. Sometimes there were great rooms. Sometimes there were pools of motionless water. It was hard to the name..very lonesome. So the practice of their lore and the teaching of it had become perilous. Those who undertook it the islets and rocks where the dragons raised their young, killing many broods, "crushing before her massive, actual presence.. Dulse had seen young men weep for joy at the birth of a first son. He had seen poor men pay witches a year's earnings for the promise of a healthy boy, and a rich man touch his gold-bedizened baby's face and whisper, adoring, "My immortality!" He had seen men beat their sons, bully and humiliate them, spite and thwart them, hating the death they saw in them. He had seen the answering hatred in the son's eyes, the threat, the pitiless contempt. And seeing it, Dulse knew why he had never sought reconciliation with his father. "I don't know what to tell you. Is it a custom that you don't go around naked?" Hand said, "Irian, I am sorry. Ivory was my pupil. If I taught him badly, I did worse in sending hands, burned his tongue away when he tried to speak.. anything here can be wrong or go wrong, but I have to... Another wizard, not Roke-trained but with the healer's gift, looked after the sick and against the house wall, and Azver on the doorstep.. right, had at last understood the technique. But he must not hurry, he must be patient, must make woman, I did not immediately grasp, for it reached me when my back was turned, as I was. They had to share a room at the crowded inn with two other travellers, but Ivory's thoughts were perfectly chaste, though he laughed at himself a little for it.. "No, I don't," I replied, unexpectedly stubborn. She went to the bar and brought back a everybody wanted him at once, and sent a sending to the Dark Pond in Semere's cow pasture up on. There they say the women of the Hand have kept the old arts. And they teach them, not keeping them secret each to himself, as the wizards do." "Tonight,"

Dragonfly said. "At our spring, under Iria Hill. What he doesn't know won't hurt him." Her voice was half-coaxing, half-savage..screamed as green wood screams in the fire..in something that shone like phosphorized metal. It led him through farmlands that looked well kept, though.The poem begins with the best known and most cherished love story in the Archipelago, that of Morred and Elfarran. In the third year of his reign, the young king went south to the largest island of the Archipelago, Havnor, to settle disputes among the city-states there. Returning in his "oarless longship," he came to the island Solea and there saw Elfarran, the Islewoman or Lady of Solea, "in the orchards in the spring." He did not continue on to Enlad, but stayed with Elfarran. To pledge his troth he gave her a silver bracelet or arm ring, the treasure of his family, on which was engraved a unique and powerful True Rune..There's no truth in this tale but one, which is that indeed one of the first Masters of Roke opened and entered a great cavern. But though the roots of Roke are the roots of all the islands, that cavern was not on Roke..The heat of the day was beginning to lessen and the shadows of the Grove lay across the grass..too drunk to talk. Haven't seen the old man for years. He had a daughter, I think."But after he had rested a couple of days, he asked her who the cattlemen of the village were, and."Whom do you serve?" asked the shorter and younger of the women, speaking for the first time. She had a keen, hard face, with long black brows.."When did a woman last ask to enter the School?". "No," Azver said, but could say nothing else. All her will was aimed on walking forward; she had nothing else in her mind, not him, not anything. But she was there bodily with him, and he felt her presence as keenly and strangely as when she had come to his summoning. The rain ran down her naked head and body. He made her stop to put on his shirt. He was ashamed of it, for it was filthy, he having worn it all these weeks. She let him pull it over her head and then walked right on. She could not go quickly, but she went steadily, her eyes fixed on the faint cart track they followed, till the night came early under the rain clouds, and they could not see where to set their feet..teach me how to make stones into diamonds? And when he had drunk his soup, and she was settled with her mending, he told it..He resolved to wait and watch. Being a patient man with a strong will, he did so for four years.."Go on, Deyala. I'll stay here." The Herbal went off. Azver sat down on the rough bench Irian had made and put against the front wall of the house. He looked upstream at her, crouching motionless on the bank. Sheep in the field between them and the Great House blatted softly. The morning sun was getting hot..to the right of the hearth, and took up her mending. He was a consciously close-mouthed man, distrustful of visions until they could be made acts; and she, though a dutiful, loving wife and mother and housekeeper, already made too much of Diamond's talents and accomplishments. Also, like all women, she was inclined to babble and gossip, and indiscriminate in her friendships. The girl Rose hung about with Diamond because Tuly encouraged Rose's mother the witch to visit, consulting her every time Diamond had a hangnail, and telling her more than she or anyone ought to know about Golden's household. His business was none of the witch's business. On the other hand,

Tangle might be able to tell him if his son in fact showed promise, had a talent for magery...but he flinched away from the thought of asking her, asking a witch's opinion on anything, least of all a judgment on his son..often doesn't know what he's doing, do you see."..away, instead of sinking into the blank misery of all his nights in that room, he stayed awake..down, the mouth closed, the spirit listening..round, strong arms, her hard, red hands. The cattleman Alder expected him to stay out in these. "What I have to do, you see," the old wizard said, still talking to Silence because it was a comfort to talk to him even if he was no longer there, "is get into the mountain, right inside; but not the way a sorcerer-pro prospector does; not just slipping about between things and looking and tasting. She was never ill-natured. She seldom thought to do anything much for her daughter, but never hurt her, never scolded her, and gave her whatever she asked for, dinner, a toad of her own, the amethyst necklace, lessons in witchcraft. She would have provided new clothes if Rose had asked for them, but she never did. Rose had looked after herself from an early age; and this was one of the reasons Diamond loved her. "Eyelash" in the True Speech is siasa, he read, and he felt eyelashes brush his cheek in a butterfly kiss, dark lashes. He looked up startled and did not know what had touched him. Soul-jewel!"..personally, was not one she could keep in mind. She tried to be respectful, but it was impossible.."Will you trust me entirely, wholly - knowing that the risk I take for you is greater even than."Thank you for these and the shoes," he said, and thanking her for the gift, remembered her use..after the Long Dance. Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach-which may have been the easternmost borders of their own realm-for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach. For whatever the reason, in those years they made increasing raids, sudden and random, on flocks and herds and villagers of the lonely western isles.."Written on?" said Crow, who had been sitting on the well coping, bored.
