thoughtful. "Powers you have, yes, all kinds of little traits and tricks. A clever lad. But not." Oh yes. You are uncommonly slow, young man, to recognize your own capacities." It was spoken harshly, and Diamond stiffened up a bit. But something else was occupying me. I sat half supine, my legs stretched out, "In the Inmost Sea, on the Isle of the Wise, on Roke Island, where all magery is taught, there are." My father," he began, and stopped, and gave a kind of laugh. "They don't go together," he said. "Stay." "I'll show you some. That's what Gelluk's after. The ore of watermetal. But I..I can't be double-hearted." .think I ought to?" he asked at last..Thirty years before, the pirate lords of Wathort had sent a fleet to conquer Roke, not for its wealth, which was little, but to break the power of its magery, which was reputed to be great. One of the wizards of Roke had betrayed the island to the crafty men of Wathort, lowering its spells of defense and warning. Once those were breached, the pirates took the island not by wizardries but by force and fire. Their great ships filled Thwil Bay, their hordes burned and looted, their slave takers carried off men, boys, young women. Little children and the old they slaughtered. They fired every house and field they came to. When they sailed away after a few days they left no village standing, the farmsteads in ruins or desolate..her mouth. "And a man comes when you knock, an ordinary-looking man. And he gives you a test. You have to say a certain word, a password, before he'll let you in. If you don't know it, you can never go in. But if he lets you in, then from inside you see that the door is entirely different - it's made out of horn, with a tree carved on it, and the

frame is made out of a tooth, one tooth of a dragon that lived long, long before Erreth-Akbe, before Morred, before there were people in Earthsea. There were only dragons, to begin with. They found the tooth on Mount Onn, in Havnor, at the centre of the world. And the leaves of the tree are carved so thin that the light shines through them, but the door's so strong that if the Doorkeeper shuts it no spell could ever open it. And then the Doorkeeper takes you down a hall and another hall, till you're lost and bewildered, and then suddenly you come out under the sky. In the Court of the Fountain, in the very deepest inside of the Great House. And that's where the Archmage would be, if he was there..."photography? I put the paper into my pocket and left. A golden hell seemed to descend on the shadow. Gont Port and its bay were hidden under the steep, knotted hills that stood above the land beneath it reaching to the south. I remembered my geography lessons when I was a boy at Roke.."Oh, they'll come for the glory," said the harper, a lean, long-jawed, wall-eyed fellow of forty..He resolved to wait and watch. Being a patient man with a strong will, he did so for four years.."That?" I pointed at the glass wall.."But we met, we sat, and we could not choose. We said this and said that, but no name was spoken..The idea of a school for wizards made him laugh. A school for wild boars, he thought, a college..But a year or so later he saw Diamond out in the back garden with his playmate Rose. The children were squatting on their haunches, heads close together, laughing. Something intense or uncanny about them made him pause at the window on the stairs landing and watch them. A thing between them was leaping up and down, a frog? a toad? a big cricket? He went out into the garden and came up near them, moving so quietly, though he was a big man, that they in their absorption did not hear him. The thing that was hopping up and down on the grass between their bare toes was a rock. When Diamond raised his hand the rock jumped up in the air, and when he shook his hand a little the rock hovered in the air, and when he flipped his fingers downward it fell to earth.."Gentlemen, I'm looking for a hotel.
