"And you didn't . . ." crown to their son Maharion. She was in his charge, in his care, he had known that when he saw her. Though she came to destroy Roke, as she had said, he must serve her. He did so willingly. She had walked with him in the forest, tall, awkward, fearless; she had put aside the thorny arms of brambles with her big, careful hand. Her eyes, amber brown like the water of the Thwilburn in shadow, had looked at everything; she had listened; she had been still. He wanted to protect her and knew he could not. He had given her a little warmth when she was cold. He had nothing else to give her. Where she must go she would go. She did not understand danger. She had no wisdom but her innocence, no amour but her anger. Who are you, Irian? he said to her, watching her crouched there like an animal locked in its muteness. They held each other tight, hard, silent for a long time. To Diamond it was as if he held his. of his soles, but the mud slimed and fouled any messages the dirt had for him. Through love, respect, and trust, Dragonfly would never disregard a warning from Rose; but she was unable to see Ivory as perilous. She didn't understand him, but the idea of fearing him, him personally, was not one she could keep in mind. She tried to be respectful, but it was impossible. She thought he was clever and quite handsome, but she didn't think much about him, except for what he could tell her. He knew what she wanted to know and little by little he told it to her, and then it was not really what she had wanted to know, but she wanted to know more. He was patient with her, and she was grateful to him for his patience, knowing he was much quicker than she. Sometimes he smiled at her ignorance, but he never sneered at it or reproved it. Like the witch, he liked to answer a question with a question; but the answers to Rose's questions were always something she'd always known, while the answers to his questions were things she had never imagined and found startling, unwelcome, even painful, altering all her beliefs. lore a wizard or his prentice might record a plague, a famine, a raid, a change of masters, along. But she forgave; and the grey cat was pressed up against his thigh, dreaming. The cat's dreams came into his mind, in the low fields where he spoke with the animals, the dusky places. The cat leapt there, and then there was milk, and the deep soft thrilling. There was no fault, only the great innocence. No need for words. They would not find him here. He was not here to find. There was no need to speak any name. There was nobody but her, and the cat dreaming, and the fire flickering.
