stretched out her arms suddenly and bowed -- the end -- but no one applauded; the dancer."You're going to Roke to find out," he said, raising his glass to her. I wanted to say, and sat up suddenly..All this went rushing through his mind like a flood breaking through a dam, while he stood at the edge of the woods with Veil. "I thought mages kept themselves apart," he said at last. "High-drake said that to make love is to unmake power." .I'll be going to Easthill with Sul's mules." .They held each other tight, hard, silent for a long time. To Diamond it was as if he held his future, his own life, his whole life, in his arms.."I'm at the Cavuta, my second year. Beyond that was only rumor and dream..So they talked, that long winter, and others talked with them. Slowly their talk turned from vision to intention, from longing to planning. Veil was always cautious, warning of dangers. White-haired Dune was so eager that Ember said he wanted to start teaching sorcery to every child in Thwil. Once Ember had come to believe that Roke's freedom lay in offering others freedom, she set her whole mind on how the women of the Hand might grow strong again. But her mind, formed by her long solitudes among the trees, always sought form and clarity, and she said, "How can we teach our art when we don't know what it is?" .from the concave ceiling seemed practically a glow. I did not know what to do with my hands, so..Ivory clapped his hand to his right leg. A dog's tooth had ripped his breeches at the calf, and a..confused..He thought what he must do, and how he must do it. He wasn't sure whether he had summoned her or she had come of her own will; he didn't know how she had spoken the word of the Old Tongue to him or through him. He didn't know what he was doing, or what she was doing, and he was almost certain that the working of any spell would rouse Gelluk. But at last, rashly, and in dread, for such spells were a mere rumor among those who had taught him his sorcery, he summoned the woman in the stone tower.."While we talk behind her back?" .He saw Irian staring at him in amazement. Thorion the Summoner speaks his true name," he said. "He..even then, if a wizard met up with one whose powers were greater than his own, he might be..sent Morred's own spell-bound warriors to fight him, and worse, sent sorceries that shriveled up..kings who followed him in Enlad were seven, and their realm increased in peace and wealth. Then..bitch!" .he came from? But he was

no more trouble than the cat. He washed his own clothes, even his father's carter's, along with Master Hemlock. As a rule, people do what wizards advise them to do. "I will," said Ivory, with a wink at Dragonfly. She, well disguised in dirt and a farmhand's old smock and leggings and a loathsome felt hat, did not wink back. She played her part even while they sat side by side dangling their legs over the tailgate, with six great half-tuns of wine jolting between them and the drowsy carter, and the drowsy summer hills and fields slipping slowly, slowly past. Ivory tried to tease her, but she only shook her head. Maybe she was scared by this wild scheme, now she was embarked on it. There was no telling. She was solemnly, heavily silent. I could be very bored by this woman, Ivory thought, if once I'd had her underneath me. That thought stirred him almost unbearably, but when he looked back at her, his thoughts died away before her massive, actual presence. . . that would have kept a far more experienced wizard captive. There were men of great skill and. There were other people on the hill, he saw now, many others, men and women, children, living and spirits of the dead; many, many of them. "Medra," she said. Her sore mouth could not speak clearly. He knelt down and took her hands. . . They said little, seeming to consult and assent among themselves almost in silence. At last the shorter woman looked with her fierce eyes at Medra. "Stay if you will," she said. "So where is it?" Hound said. . . This time the Doorkeeper nodded.
