place, sat down on the pallet, and went on thinking. The prisoning spell was still there, yet it had no power over him now. He could walk into it and
out of it as if it were mere lines painted on the floor. Gratitude for this freedom beat in him as steady as his heartbeat..During the voyage, however,
he talked several times with Dragonfly, which made Ivory a bit uneasy. Her ignorance and trustfulness could endanger her and therefore him. What
did she and the bagman talk about? he asked, and she answered, "What is to become of us."."I know nothing," Irian said. She stepped forward

manipulated by the high priests of the Twin Gods. Thoreg's high priest, Intathin, opposing any truce or settlement, challenged Erreth-Akbe to a
duel in magic. Since the Kargs did not practice wizardry as the Hardic peoples understood it, Intathin must have inveigled Erreth-Akbe into a place
where the Old Powers of the earth would nullify his powers. The Hardic Deed of Erreth-Akbe speaks only of the hero and the high priest

AM].Where he went then, the songs don't tell. They say only that he wandered, "he wandered long from land to land." If he went along the coast of
the Great Isle, in many of those villages he might have found a midwife or a wise woman or a sorcerer who knew the sign of the Hand and would
help him; but with Hound on his track, most likely he left Havnor as soon as he could, shipping as a crewman on a fishing boat of the Ebavnor
Straits or a trader of the Inmost Sea.."So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep you safe. To
keep you with the mule-breeders, and the nut-pickers, and these." She struck the ledger full of lists of names and figures, a flicking, dismissive tap.

men and women taught and learned there during its first decades; but since during the Dark Time women, witchery, and the Old Powers had all
come to be considered unclean, the belief was already widespread that men must prepare themselves to work "high magic" by scrupulously
avoiding "base spells," "Earthlore," and women. A man unwilling to put himself under the iron control of a spell of chastity could never practice
the high arts. He could be no more than a common sorcerer. Male wizards thus had come to avoid women, refusing to teach them or learn from
them. Witches, who almost universally went on working magic without giving up their sexuality, were described by celibate men as temptresses,
unclean, defiling, essentially wicked..But he looked up, not at Ged but at Gift, silent in the hearth corner..driven off or killed, one after another, his

Isles were used to seeing, and Tern offered them at fair prices, mostly in barter, since there was little money among the islanders. Their popularity
ran ahead of them. It was known that they would trade for books, if the books were old and uncanny. But in the Isles all books were old and all

effective power wielded by certain individuals, but not by all, shapes and influences all the institutions of the Hardic peoples, so that, much as ordinary life in the Archipelago seems to resemble that of nonindustrial peoples elsewhere, there are almost immeasurable differences. One of these differences may be, or may be indicated by, the lack of any kind of institutionalised religion. Superstition is as common as it is anywhere, but there are no gods, no cults, no formal worship of any kind. Ritual occurs only in traditional offerings at the sites of the Old Powers, in the great, universally celebrated annual festivals such as Sunreturn and the Long Dance, in the speaking and singing of the traditional songs and epics at these festivals, and, perhaps, in the performance of spells of magic..puffed-out cheeks, playing a flute. She could not speak. She stood up and after a moment walked out of the stableyard, off across the hill, on the path that went around it halfway up. One of the dogs, her favorite, a big, ugly, heavy-headed hound, followed her. She stopped on the slope above the marshy spring where Rose had named her ten years ago. She stood there; the dog sat down beside her and looked up at her face. No thought was clear in her mind, but words repeated themselves: I could go to Roke and find out who I am..skillful. The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of sight of land and seldom rowed through the night, laying to in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. The ship drifted softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep but the helmsman and the lookout, and the lookout was dozing. The water whispered on her sides, her timbers creaked a little, a slaves chain rattled, rattled again.
