"The key," Gelluk said. "Oh, they'll come for the glory," said the harper, a lean, long-jawed, wall-eyed fellow of forty. "Maybe you'll have a go with you yourself, then? You had a hand for it, before you took to making money. And the voice not bad, if you'd worked on it.".. perhaps -- hatched out an eagle.. Where he stood it was not wholly dark. The air moved against his face. Far ahead, dim, small, image of Anieb as he had first seen her, a dying woman standing alone in the tower room, was. Hardic with the Old Speech, in which spells are cast, and thus fear and despise all Archipelagan. Golden did not like the child. She was both outspoken and defensive, both rash and timid. She was a girl, and a year younger than Diamond, and a witch's daughter. He wished his son would play with boys his own age, his own sort, from the respectable families of Glade. Tuly insisted on calling the witch "the wisewoman," but a witch was a witch and her daughter was no fit companion for Diamond. It tickled him a little, though, to see his boy teaching tricks to the witch-child.. ledge covered with weakly fragrant flowers, as if we had reached the terrace or balcony of a dark. because after all they had been friends, companions, and he had done all this for her. There were many such isles in the Archipelago, made barren and desolate by rival wizards' blights and curses; they were evil places to come to or even to pass, and Medra thought no more about this one, until that night.. will see to your first expenses.. and he ceased to think of anything at all. They dumped him into a mule-cart like a sack of oats.. No wind stirred. The air was soft, the big sail hung slack. Only the western stars faded and vanished in a silent blackness that rose slowly higher. The master looked at that. "Witchwind, you say?" he asked, reluctant.. Isle of Way by one of Losen's raiders, Gelluk had become indifferent to most of the arts he had. "I won't sail my boat across Havnor, dear love. I plan to go around it. By water." He could always make her laugh; he was the only one who could. When he was away, she was quiet-voiced and even-tempered, having learned the uselessness of impatience in the work that must be done. Sometimes she still scowled, sometimes she smiled, but she did not laugh. When she could, she went to the Grove alone, as she had always done. But in these years of the building of the House and the founding of the school, she could go there seldom, and even then she might take a couple of students to learn with her the ways through the forest and the patterns of the leaves; for she was the Patterner.. And the Old Powers of the Earth, which are manifest at Roke Knoll, the Immanent Grove, the Tombs. story of how Erreth-Akbe lost the Ring of Peace, and the new songs and the King's Tale about how. "Why didn't you come to me first?" Dulse had demanded. "And then Roke, to put a polish on it?" She shrugged. "No," she said.. He checked the henhouse, finding three eggs. Red Bucca was setting. Her eggs were about due to hatch. The mites were bothering her, and she looked scruffy and jaded. He said a few words against mites, told himself to remember to clean out the nest box as soon as the chicks hatched, and went on to the poultry yard, where Brown Bucca and Grey and Leggings and Candor and the King huddled under the eaves making soft, shrewish remarks about rain.. She asked nothing and he said no more. Presently he got up, and she followed him to the path that always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's House. When they came there, it was late afternoon. He went down to the stream and drank from it where it left the wood, above all the crossings. She did the same. Then sitting in the cool, long grass of the bank, he began to speak.. "I'll bring food," he said, and strode on, quickening his pace so that he vanished soon, though not so abruptly as the Namer, in the light and shadow under the trees. Irian watched till he was certainly gone and then made her way through high grass and weeds to the little house.. Pre seen you make a light glow in thin air. You didn't know I was watching. I've watched and said nothing for a long time. I didn't want

to make too much of mere childish play. But I believe you have a gift, perhaps a great gift. When I told Master Hemlock what I'd seen you do, he agreed with me. He said that you may go study with him in South Port for a year, or perhaps longer." At the sides of our ramp appeared whirling green circles, like neon rings suspended in. but there's no more in that than a few drops. It's scarcely worth burning for so little. If you. Anieb kept a better pace than seemed possible in a woman so famished and destroyed, walking almost naked in the chill of the rain. All her will was aimed on walking forward; she had nothing else in her mind, not him, not anything. But she was there bodily with him, and he felt her presence as keenly and strangely as when she had come to his summoning. The rain ran down her naked head and body. He made her stop to put on his shirt. He was ashamed of it, for it was filthy, he having worn it all these weeks. She let him pull it over her head and then walked right on. She could not go quickly, but she went steadily, her eyes fixed on the faint cart track they followed, till the night came early under the rain clouds, and they could not see where to set their feet. "And when he doesn't have any?" Brushwood formed a black circle around the lake. I could hear the rustling of rushes and. The name and office of archmage were invented by Halkel, and the Archmage of Roke was a tenth Master, never counted among the Nine. A vital ethical and intellectual force, the archmage also exerted considerable political power. On the whole this power was used benevolently. Maintaining Roke as a strong centralising, normalising, pacific element in Archipelagan society, the archmages sent out sorcerers and wizards trained to understand the ethical practice of magic and to protect communities from drought, plague, invaders, dragons, and the unscrupulous use of their art.. were challenged by Irioth. "But that's. . . you think that I keep all these bottles here, in my apartment?" These kings and queens had some knowledge of the Old Speech and of magery. Some of them were certainly wizards, or had wizards to advise or help them. But magic in The Deed of Enlad is an erratic force, not to be relied on. Morred was the first man, and the first king, to be called Mage.. met women and found them easy to be with, like the animals; they went about their business not. arms to wide feathered wings, and the eagle flew up and off across the wind.. Profoundly disturbing moral choices are sanitized, made cute, made safe. The passionately. BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end.. There were other people on the hill, he saw now, many others, men and women, children, living and spirits of the dead; many, many of them. He was terrified of them and cowered, trying to make a spell that would hide him from them all.. After a while Ayo said, "She went down to Firm with some of the young folk. To buy fleece from the shepherds there. A year ago last spring. That wizard they spoke of came there, casting spells. Taking slaves." She knew he was right.. The voices of the mages talking were like the voices of the stream running. The stream said its words and they said theirs, but none of them were the right words.. There are two entirely different kinds of writing in Earthsea: the True Runes and runic writing.. "A shirt." He was destroyed, and his fleet scattered..He turned and made for the shore, hasty, careless where he set his feet and not caring if he broke the silence by splashing and breathing hard. He slogged back up the path through the reeds till he reached dry ground and coarse grass, and heard the buzz of midges and crickets. He sat down then on the ground, rather hard, for his legs were shaking.."If somebody could talk to her people there, they'd get word to her. Her brother, Littleash, used
