

THANKS LORD FOR THE DAY

Every nerve in Junior's body was a tautly strung trigger wire. If something set him off, he might explode so violently that he'd blow himself into a psychiatric ward. "I know how to build boats, how to sail boats." The girl was creepy, no doubt about it, and Junior felt now precisely as he had felt on the night of Celestina's exhibition at the Greenbaum Gallery, when he had come out of the alleyway after disposing of Neddy Gnathic in the Dumpster and had checked his watch only to discover his bare wrist. He was missing something here, too, but it wasn't merely a Rolex, wasn't a thing at all, but an insight, a profound truth. The operator attempted to calm him, but he remained hysterical. Between gasps and sharp squeals of pretended pain, he shakily rattled off his name, address, and phone number. The sound-suppressor didn't render the pistol entirely silent, but the three soft reports, each like a quiet cough muffled by a hand, wouldn't have carried beyond the hallway. This wasn't a new sensation. He had experienced it before. In the night just passed, when he awakened from an unremembered dream and saw the bright quarter dancing across Vanadium's knuckles. "Six hundred ninety-five people were killed in three states. Winds so powerful that some of the bodies were thrown a mile and a half from where they were snatched off the ground." No elevator. He didn't have to worry that with no more warning than a ding, doors might slide open, admitting witnesses into the hall. She hung her head, covered her face with her chilled hands, and wondered how her mother could sustain faith in God when such terrible things could happen to someone as innocent as Phimie. Reading about child prodigies, Agnes learned that most if not all math whizzes also possessed musical talent. To a lesser but still impressive extent, many young geniuses in the music world were also proficient at math. Pain again, but not a mere contraction. Such an excruciation, unendurable. The hobnailed wheels ground through her once more, as though she were being broken on a medieval torture device. These past ten days had been the most difficult of her life, harder even than those following Joey's death. Back then, although she had lost a husband and a gentle lover and her best friend all at once, she'd had her undiminished faith, as well as her newborn son and all the promise of his future. She still had her precious boy, even though his future was to some extent blighted, and her faith remained with her, too, though diminished and offering less solace than before. The driver shook his head. "I knew everything anyone would need to know about you when I heard you ask your kid what would happen if the stupid boogeyman showed up in her dream." Initially, the Pacific could not be seen beyond an opaque lens of fog. Yet later, when the mist retreated, the sea itself became a portent of sightlessness: Spread flat and colorless in the morning light, the glassy water reminded her of the depthless eyes of the blind, of that terrible sad vacancy where vision is denied. "Mrs. Lampion, in a case like this, I've found that the greatest mercy is directness. Your son has retinoblastoma. A malignancy of the retina." Lipscomb turned to Celestina. "Before lapsing into semicoherence again, your sister said, 'Beezil and Feezil are safe with her,' which may sound less than coherent to you, but not to me." He had sat here with a pencil, making shopping lists. Now, instead of a pencil, there was the Italian-made .22 pistol. The poor girl's blood pressure soared in spite of the medication. She suffered a violent seizure, out of hand. "Well ... yes, I suppose so." Spineless, unethical quack bastard, Junior thought bitterly. "Sulk away," the man said. "If you don't like this work, there's always the roaster." He didn't want to risk marrying weapon and silencer here in the hall, where he might be seen. Besides, complications could arise from being splattered with Neddy's blood. Aftermath was disgusting, but it was also highly incriminating. For the same reason, he was loath to use a knife. As Wally got behind the wheel and closed his door, Angel said, "Mommy, where's fog come from? And don't say Hawaii." As Tom Vanadium studied the stained and ravaged wall again, a cold and quivery uneasiness settled insectivally onto his scalp and down the back of his neck, quickly bored into his blood, and nested in his bones. He had the terrible feeling that he was not dealing with a known quantity anymore, not with the twisted man he'd thought he understood, but with a new and even more monstrous Enoch Cain. Carrying the tote bag full of Angel's dolls and coloring books, Wally crossed the sidewalk ahead of Celestina and climbed the front steps. The chest respirator, which Joshua had evidently applied, lay discarded on the bedclothes beside her. She seldom required this apparatus to assist her breathing, and then only at night. Six captain's chairs encircled the big round table, one for everybody, including Agnes, but only Paul and Barty stayed seated. For a while, Junior half convinced himself that the quarter in his cheeseburger, in December '65, was a meaningless coincidence, unrelated to Vanadium. His short tour of the kitchen, in search of the perpetrator, had given him reason to believe the diner's sanitary standards were inadequate. Recalling the greasy men on that culinary death squad, he knew that he'd been fortunate not to discover a dead rodent spread-eagle on the melted cheese, or an old sock. "No. Lampion. Somewhere in your father's French background, there must have been lamp makers. A lampion is a small lamp, an oil lamp with a tinted-glass chimney. Among other things, in those long ago days, they used them on carriages." "I get frustrated," he admitted. "Trying to learn how to do things in the dark ... I get pee'd off, as they say." Those who had just met her and those who were overly charmed by eccentricity called her Seraphim, her name complete. Her teachers, neighbors, and casual acquaintances called her Sera. Those who knew her best and loved her the most deeply--like her sister, Celestina called her Phimie. Junior closed his weary eyes and gratefully submitted as the paramedic wiped his greasy face and his crusted lips with a cool, damp cloth. The magazine covers were colorful, lurid, full of violence and eeriness and the coy sexual suggestiveness of a more innocent time. Most days, he read a story while eating the two pieces of fruit that were his lunch, but sometimes he lost himself in a particularly vivid illustration, daydreaming about far places and great adventures. "Cancer," she whispered, and superstitiously reproached herself for speaking the word aloud, as though thereby she'd given power to the malignancy and ensured its existence. Although Thomas Vanadium was unconscious, perhaps even dead, and though both nailhead-gray eyes were closed, Junior knew those eyes were watching

him, watching through the lids..Celestina was maneuvered aside as the surgical team began resuscitation procedures. Stunned, she backed away from the table until she encountered a wall. In southern California, as dawn of this new momentous day looms.Junior joined the throngs, although he had no gift list or feeling for the season. He just needed to get out of his apartment, because he was convinced that the phantom singer would soon serenade him again.."Sure. Or why don't I pull a Rumpelstiltskin and demand one of her children for payment' ".altogether by taking slow deep breaths, slow deep breaths, and by remembering that each of us has a right to be happy, to be fulfilled, to be free of fear..Agnes supposed Jacob trembled in anticipation of the crash of an airliner or at least a light aircraft. Edom might be calculating the odds that this serene place-at this specific hour-would be the impact point for one of those planet-killing asteroids that reputedly wiped most life off the earth every few hundred thousand years or so..The slow-motion death ballet, in which Bonnie and Clyde were riddled with bullets, was the worst moment Junior had ever heard in a film. He didn't see more than a brief glimpse of it, because he sat with his eyes squeezed shut. Nine days previously, at Google's instructions, Junior had rented boxes at two mail-receiving services, using the name John Pinchbeck at one, Richard Gammoner at the other, and then he had supplied those addresses to the papermaker. These were the two identities for which Google ultimately provided elaborate and convincing documentation..The ship of night floated over the city and cast down nets of darkness, gathering millions of lights like luminous fishes in its black toils..With the infant in her arms, the heavysset nurse pressed in beside Celestina, who..In the cab, pulling into traffic, the driver said, "The mister tells me you're the star of the show tonight."..He pushed back the bedclothes and sat up, leaning against the pillows and headboard. "This is maybe a hard thing for you to do, but it's really important."..The parsonage was a clean, respectable, and even charming house, but nothing about it might be called grand. No sweeping staircase offered a glamorous showcase adequate for Scarlett O'Hara. Instead, the stairs were enclosed, accessed by a door in one corner of the living room..Captivated by catastrophe, so lost in his book that he might as well have stepped magically inside of it and closed the covers after himself, Uncle Jacob didn't answer..Certain the caller was the police operator, Junior screamed as though in agony, wondering if his cries sounded genuine, since he'd had no opportunity to rehearse. Then, in spite of the painkiller, his cries suddenly were genuine..While the doctor proceeded with his evening rounds, the nurse remained with Junior until it was clear that the tranquilizer had calmed him and that he was no longer in danger of succumbing to another bout of hemorrhagic vomiting..Having been an object of Thomas Vanadium's fixation, Junior felt fortunate to have survived. He shuddered.."Me too." He closed the ring box. Took a deep breath. Opened the box again. "Celestina, when I met you, my heart was beating but it was dead. It was cold inside me. I thought it would never be warm again, but because of you, it is. You have given my life back to me, and I want now to give my life to you. Will you marry me?"..He wondered if the hawk had descended in a constricting gyre, justice coming down, but he could not lift his head to see..Symptoms of food poisoning usually appear within two hours of dining. The hideous intestinal spasms had rocked him at least six hours after he'd eaten. Besides, if the culprit were food poisoning, he would have vomited; but he hadn't felt any urge to spew.."I'm glad to hear it," Tom said. His thin smile might have been ironic, though it wasn't easy to interpret the meaning of any subtle expression on his hammered face."A friend's daughter. They say she died in a traffic accident down in San Francisco. She was even younger than Naomi."..Junior closed his eyes at once and let his jaw sag, breathing through his mouth, feigning sleep.."Not really. I love you, Mommy." He yawned and dropped into sleep with a quickness that always amazed her. And then everything changed in one stunning moment. Changed profoundly and forever..In fifty years, until Angel, Tom had found no other like himself and now a second in little more than a week. "I can't do what you did."..He had been surprised to learn her age. She didn't appear to be that old. Thirty or not, Victoria was unusually attractive..Packed full of aftermath, the movie was too violent for Junior's taste. He had wanted to meet at a showing of Doctor Dolittle or The Graduate. But Google, as paranoid as a lab rat after half a lifetime of electroshock experiments, insisted on choosing the theater..Twice would indicate a dangerous mania. Three times would be indefensible. But once was healthy experimentation. A learning experience..Vanadium owned so few clothes that the two bags had sufficient capacity to accommodate half the contents of the closet and dresser..Regrettably, his radiant smile only emphasized, by contrast, the dire shortcomings of the face from which it beamed. Lumpish, pocked, wart-stippled, darkened by a permanent beard shadow with a bluish cast, this countenance was beyond the powers of redemption possessed by the best plastic surgeons in the world, which was no doubt why Nolly applied his resources strictly to dental work..Chicane wasn't alone. Sparky Vox, the building superintendent, approached behind him and hovered. Seventy-two yet as spry as a monkey, Sparky didn't walk so much as scamper like a capuchin..When he heard the snick of the lock being disengaged, he rammed into the men's room..Knuckle over knuckle, snared in the web of thumb and forefinger, vanishing into the purse of the palm, secretly traversing the hand, reappearing, knuckle over knuckle, the coin glimmered as it turned..thickened with the odors of antiseptics and blood, until breathing required an effort..Using a three-step folding stool, he was able to get near enough to one of the vent plates in the living room to determine whether it might be the source of the song. just then the singing stopped..Although only half the stools at the counter were occupied, and none of those close to Junior, customers were seated in most of the booths. Some had their backs to him, and three were about Vanadium's size..Based on the evidence, perhaps Sklent never laughed, regardless of how clever the joke. He scowled fiercely at the paintings in the brochure, returned it to Junior, and snarled, "Shoot the bitch."..In spite of the bravado of the responses in Junior's unspoken half of the conversation, he was increasingly unnerved by Vanadium. The cop was a lunatic, all right, but he was something more than a mere nut case..When Agnes pressed for a diagnosis, Dr. Chan quietly pleaded the need to gather more information. After Barty had seen the oncologist and had additional tests, he and his mother would return here in the afternoon to receive a diagnosis and counseling in treatment options..Oblivious that

she and Barty had become the center of attention, Angel said, "Does he ever get the quarters back?" "The exquisite kind," he replied, glad that he had read so many books on the art of seduction and therefore knew precisely the right thing to say. EARLY CHRISTMAS EVE, gallery brochure in hand, Junior returned to his apartment, puzzling over mysteries that had nothing to do with guiding stars and virgin births. Junior said nothing. He was still upset with Naomi for hiding the pregnancy from him, but he was delighted that the baby would have been his. Now Vanadium couldn't claim that Naomi's infidelity and the resultant bastard had been the motive for murder. He knew what she made of it, all right, and he could see that the others on the porch knew as well, and likewise he could see that all of them wanted to hear him confirm the conclusion at which Agnes had arrived long before he'd come here with Wally this evening. Even in the dining room, before the proof in the rain, Tom had recognized the special bond between the blind boy and this buoyant little girl. In fact, he couldn't have arrived at any conclusion different from the one Agnes reached, because like her, he believed that the events of every day revealed mysterious design if you were willing to see it, that every life had profound purpose. Not cheerful, life-loving, high-spirited, churchgoing Naomi. She saw every day through a golden haze that came from the sun in her heart. do further testing, of course, but not until he's been stabilized at least twelve hours. Personally, I don't think we'll find any physical cause. Most likely, this was psychological-acute nervous emesis, caused by severe anxiety, the shock of losing his wife, seeing her die. He picked up Angel, picked up Barty. "Hold on." He carried them out of the room, down the stairs, out of the house, to the yard under the great tree, where they would wait for the police, and where they would not see Jacob's body when the coroner removed it by way of the front door. "Oh? Do they rent their house out to pirates with little pirate children, clowns with little clown children?" Following a month of recuperation and postoperative medical care, Junior was able to return to his twice-a-week classes in art appreciation. He resumed, as well, his almost daily strolls through the city's better galleries and fine museums. A table candle glowed in an amber glass. To Nolly, in this glimmering light, Kathleen's face was more radiant than the flame. He swallowed one capsule and washed it down with water. He returned the pharmacy bottle to the nightstand. In Losen's service was a man who called himself Hound, because, as he said, he had a nose for witchery. His employment was to sniff Losen's food and drink and garments and women, anything that might be used by enemy wizards against him; and also to inspect his warships. A ship is a fragile thing in a dangerous element, vulnerable to spells and hexes. As soon as Hound came aboard the new galley he scented something. "Well, well," he said, "who's this?" He walked to the helm and put his hand on it. "This is clever," he said. "But who is it? A newcomer, I think." He sniffed appreciatively. "Very clever," he said. Junior Cain felt as if his heart had been lanced by a needle so thin that the muscle still contracted rhythmically but painfully around it. She did? She. . . she wrote that? Although Vanadium had been morally certain about the identity of his assailant, intuition without evidence was not sufficient to stir the authorities into action-not against a man on whom the state and county had settled \$4,250,000 in the matter of his wife's mortal fall. They would appear either to be incompetent in the investigation of Naomi Cain's death or to be pursuing Enoch in the new matter out of sheer vindictiveness. Without stacks of evidence, the political risks of acting on a policeman's instinct were too great. To his room then, where they sat side by side in bed, a plate of chocolate-chip cookies between them. Through the evening, they stepped off this earth and out of all its troubles, into a world of adventure, where friendship and loyalty and courage and honor could deal with any malignancy. "Living high. When I wasn't on the road, I had a fine house here in Bright Beach, not this rental shack I'm in now, but a nice little place with an ocean view. You can guess what went wrong." Ordinarily, she would have returned to the first of the candles and offered a second fragment to Saint Peter. In this case, however, she entrusted it to the least known of the apostles, because she was sure that he must have special significance in this matter. A moment later, in the corridor, as Nolly locked the door to his suite, Kathleen linked her right arm through Vanadium's left. "Do I call you Detective Vanadium, Brother, or Father?" Shopping for fashion accessories relaxed Junior. He spent a few hours browsing for tie chains, silk pocket squares, and unusual belts. Riding the up escalator in a department store, between the second and In Cain's bedroom, Tom Vanadium's hooded flashlight revealed a six-foot-high bookcase that held approximately a hundred volumes. The top shelf was empty, as was most of the second. Being ruthlessly honest with himself, as always, he acknowledged that killing Tammy would not solve his problem. She might have told friends and colleagues about the Rolex, just as she had surely shared with her girlfriends the juiciest details about Junior's unequalled lovemaking. During the two months that he and the cat woman dated, others had heard her call him Eenie. He couldn't kill Tammy and all her friends and colleagues, at least not on a timely enough schedule to thwart the police. Setting out after dark, Paul had walked south, following the coastal highway. He was accompanied by the windy rush of passing traffic, but later only by the occasional cry of a blue heron, the whisper of a salty breeze in the shore grass, and the murmur of the surf. Without pushing himself too hard, he reached La Jolla by dawn. In the refrigerator, he found a stick of butter in a container with clear plastic lid. He took the container to the cutting board beside the sink, to the left of the cooktop, and opened it. And though Barty was not shy, neither was he a show-off. He didn't seek praise for his accomplishments, and in fact, they were little known outside of his immediate family. His satisfaction came entirely from learning, exploring, growing. Perri had been crippled seventeen years before Jonas Salk's vaccine had spared future generations from the curse of polio. II. Otter. Flanked by Dumpsters and trash cans, through steam rising out of grates in the pavement, past parked delivery trucks, here came the dead cop. Running. "It sure is," Barty said. When only a mortified silence followed his remark, he added: "Gee, I thought that was kinda funny." On the fourth floor, at Dr. Klerkle's suite, the hall door stood ajar. Past office hours, the small waiting room was deserted. "He's crafty, you say. Can you use him?" In the faraway, at the limits of night and fog, the dog bit off his bark in expectation. Grimacing, she said, "I told the police about your disgusting little come--on with the ice spoon." "What aren't

you telling us?" her mother pressed, intuiting the existence of a larger story, if not the amazing nature of it..The strange barrage of lightning, putting an end to the rain rather than initiating it, had been a clue. The rapid clearing of the sky-indicating a stiff wind at high altitudes, while stillness prevailed at ground level-a sudden plunge in the humidity, and an unseasonable warmth confirmed the coming catastrophe..After much oily commiseration, sanctimonious babble about Naomi having gone to a better place, and insincere talk of the government's desire always to ensure the public safety and to treat every citizen with compassion, Knacker or Hisscus, or Nork, finally got around to the issue of compensation..Carrying the candlestick, he raced to the kitchen at the end of the short hall. The door stood open, but he had to enter the room to see Victoria slumped in one of the two chairs at the small dinette..Downstairs again, as Agnes reached the foot of the stairs, she began to worry that she had done too thorough a job on the khakis and that the extent of the damage would raise suspicions..When Agnes had asked him to deliver the pies, before she had set out with Joey for the hospital the previous day, Edom had wanted to beg off, but he had agreed without hesitation. He was prepared to suffer every viciousness that nature could throw at him in this life, but he could not endure seeing disappointment in his sister's eyes..He knew that he needed to get a grip on himself. But he could not keep his breathing slow and deep, couldn't remember any of Zedd's other foolproof methods of self-control, couldn't recall a single useful meditative technique..Tom between curiosity and emotional exhaustion, Celestina held his gaze, thinking, and finally she said, "Deal."..In Junior's estimation, this was not the way that a normal person lived. This was the home of a deranged loner, a dangerously obsessive man.. "There's no clear evidence of birth defects, but a couple tests reveal some worrisome anomalies. We'll know when we see the child."..They could not have been more solemn or more respectful if Naomi's corpse--stitched back together, pumped full of embalming fluid, painted with pancake makeup, dressed in white, with her cold hands clasping a Bible to her breast--had been reposing in a casket in this very room, surrounded by flowers and awaiting the arrival of mourners. They were all polite, soft-spoken, sad-eyed, oozing unctuous concern--and so full of feverish calculation that Junior wouldn't have been surprised if they had set off the ceiling-mounted fire sprinklers.. "Well, Uncle Jacob doesn't understand kids. Anyway, this is pretty good stuff."..In the years since I began to write about Earthsea I've changed, of course, and so have the people who read the books. All times are changing times, but ours is one of massive, rapid moral and mental transformation. Archetypes turn into millstones, large simplicities get complicated, chaos becomes elegant, and what everybody knows is true turns out to be what some people used to think..Junior was disturbed that the mysterious chanteuse had been performing when he wasn't home. He felt violated. Invaded.
