She refused his question, not arrogantly but definitely, saying, "You can learn about the Grove only in it and from it." A few days later she came down to the sands of Thwil Bay, where he was repairing a fishing boat. She helped him as she could, and asked about boat-building, and he told her and showed her what he could. It was a peaceful afternoon, but after it she went off in her abrupt way. He felt some awe of her; she was incalculable. He was amazed when, not long after, she said to him, "I'll be going to the Grove after the Long Dance. Bewilder and entangle a slave trying to escape. Now he felt those spells like strands of cobweb. After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute. But Hopeful, sailed and steered by two young sorcerers from the Hand of Havnor, brought Medra safe down the Inmost Sea to Roke.
