"Straining," Heleth said, his hand still absently, gently patting the dirt as one might pat a scared cow. "Quite soon now, I think. Can you hold the Gates open, my dear?" "I can build boats, or mend them, and sail them. I can find, above and under ground. I can work weather, if you have any need of that. And I'll learn the art from any who will teach me." TARRY'S MALICE had left his nerves raw, and the thought of the party weighed on him till he lost. The voices of the mages talking were like the voices of the stream running. The stream said its prejudice certainly influenced Halkel, the first Archmage, in creating his own authoritative. first sign of Otter's gift, when he was two or three years old, was his ability to go straight to. "Well, he can't lift the murrain all at once. But seems like he can cure a beast if he gets to it. "I'll bring food," he said, and strode on, quickening his pace so that he vanished soon, though not so abruptly as the Namer, in the light and shadow under the trees. Irian watched till he was certainly gone and then made her way through high grass and weeds to the little house..Anieb kept a better pace than seemed possible in a woman so famished and destroyed, walking almost naked in the chill of the rain. All her will was aimed on walking forward; she had nothing else in her mind, not him, not anything. But she was there bodily with him, and he felt her presence as keenly and strangely as when she had come to his summoning. The rain ran down her naked head and body. He made her stop to put on his shirt. He was ashamed of it, for it was filthy, he having worn it all these weeks. She let him pull it over her head and then walked right on. She could not go quickly, but she went steadily, her eyes fixed on the faint cart track they followed, till the night came early under the rain clouds, and they could not see where to set their feet..Ember usually scowled when he greeted her. There was a very long pause..Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the imprisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them.."Oh, pretty man," said one of them with a smile, "don't even show us what you have in your pack there, for I haven't a penny of copper or ivory, nor seen one for a month."..came together, so that the stars were visible only through their branches. When she did so, Alder's wife Tawny and several other people agreed with her that a squabble between sorcerers over work was nothing new and nothing to take on about. But San and his wife and the tavern crew wouldn't let it rest, it being the only thing of interest to talk about for the rest of the winter, except the cattle dying. "Besides," Tawny said, "my man's never averse to paying copper where he thought he might have to pay ivory." "Are the cattle he touched keeping afoot, then?" "So far as we can see, they are. And no new sickenings." "He's a true sorcerer, Tawny," Gift said, very earnest. "I know it." "That's the trouble, love," said Tawny. "And you know it! This is no place for a man like that. Whoever he is, is none of our business, but why did he come here, is what you have to ask." "To cure the beasts," Gift said.. The early kings and queens of Enlad, among whose names are Lar Ashal, Dohun, Enashen, Timan, and Tagtar, gradually increased their sway till they proclaimed themselves rulers of Earthsea. Their reign extended no farther south than Ilien and did not include Felkway in the east, Paln and Semel in the west, or Osskil in the north, but they did send explorers out all over the Inmost Sea and into the Reaches. But the curer from the south said he wasn't dead, and was as dangerous as an adder.
