He did not know himself why he tried to weaken her faith in wizardry; perhaps because any weakening of her strength, her wholeness, was a gain for him. He had begun merely by trying to get her into his bed, a game he loved to play. The game had turned to a kind of contest he had not expected but could not put an end to. He was determined now not to win her, but to defeat her. He could not let her defeat him. He must prove to her and himself that his dreams were meaningless..nothing at all. He sat down near her. What I can tell you is that it seems old Early is late coming home. Hm, hm," he went, pleased with his joke. "Late coming home," he repeated, and got up. He looked at Otter, who was not much to look at. Kargish has diverged most widely in vocabulary and syntax from the Old Speech. Most of its speakers (like most Hardic speakers) do not realise that their languages have a common ancestry. Archipelagan scholars are aware of it, but most Kargs would deny it, since they have confused Hardic with the Old Speech, in which spells are cast, and thus fear and despise all Archipelagan speech as malevolent sorcery..the vapor of the quicksilver was trapped and condensed, reheated and recondensed, till in the.placed them in it, then retied the thong..light?" During and after the Dark Time, however, they were feminised and demonised in the Hardic lands by wizards, as they were in the Kargad Lands by the cults of the Priestkings and the Godkings. So by the eighth century, in the Inner Lands of the Archipelago, only village women kept up rituals and offerings at the old sites. They were despised or abused for doing so. Wizards kept clear of such places. On Roke, itself the center of the Old Powers in all Earthsea, the profoundest manifestations of those powers-Roke Knoll and the Immanent Grove-were never spoken of as such. Only the Patterners, who lived all their lives in the Grove, served to link human arts and acts to the older sacredness of the earth, reminding the wizards and mages that their power was not theirs, but lent to them..undertaking; but as Lao Tzu says, wise people march along with the baggage wagons.."No," Otter said, and hesitated. It had been rebuilt and rebuilt again, but not for a long time. Nor had anyone lived in it for a long time, from the feel of it. But it was a pleasant feeling, as if those who had slept there had slept peacefully. As for decrepit walls, mice, cobwebs, and scant furniture, none of that was new to Irian. She found a bald broom and swept out a bit. She unrolled her blanket on the plank bed. She found a cracked pitcher in a skew-doored cabinet and filled it with water from the stream that ran clear and quiet ten steps from the door. All her will was aimed on walking forward; she had nothing else in her mind, not him, not anything. But she was there bodily with him, and he felt her presence as keenly and strangely as when she had come to his summoning. The rain ran down her naked head and body. He made her stop to put on his shirt. He was ashamed of it, for it was filthy, he having worn it all these weeks. She let him pull it over her head and then walked right on. She could not go quickly, but she went steadily, her eyes fixed on the faint cart track they followed, till the night came early under the rain clouds, and they could not see where to set their feet..Ember parted from him with only a "Good night."..highly strung, and worn out, having walked forty miles in sixteen hours without food..After a while the Patterner said, "That art, summoning, you know, is very . . . terrible. "So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep you safe. To keep you with the mule-breeders, and the nut-pickers, and these." She struck the ledger full of lists of names and figures, a flicking, dismissive tap. "A spell of silence," she said..It would be Berry at the door, though why he knocked she didn't know. "Come in, you fool!" she said, and he knocked again, and she put down her mending and went to the door. "Can you be drunk already?" she said, and then saw him..IN THE YEARS after Diamond left home, Golden made more money than he had ever done before. All his deals were profitable. Where'd he come from, anyhow? Answer me that..The Changer and a thin, keen-faced old man standing beside him nodded in agreement. The Master Hand said, "Irian, I am sorry. Ivory was my pupil. If I taught him badly, I did worse in sending him away. I thought him insignificant, and so harmless. But he lied to you and beguiled you. You must not feel shame. The fault was his, and mine."."We will laugh together.. "Excuse me." I touched the arm of the man in fur. "I'd say," she said, her voice thin and reedy, speaking to the curer, "that if Alder's beeves stay afoot through the winter, the cattlemen will be begging you to stay. Though they may not love you."."He helped her stand. He made no spell to protect or hide them. His strength had been used up. And

He had been crawling for a long time now, dragging the right leg, which would not bear his weight. He went forward. He smelled the wind of evening and saw the sky of evening through the branches and leaves of trees. An arched oak root formed the mouth of the cave, no bigger than a man or a badger needed to crawl through. He crawled through. He lay there under the root of the tree, seeing the light fade and a star or two come out among the leaves.
