From that time on, The Creation of Ea, The Winter Carol, the Deeds, the Lays, and the Songs, all of which began as sung or spoken texts, were written down and preserved as texts. They continue to exist in both forms. The many written copies of the ancient texts serve to keep them from varying widely or from being lost altogether; but the songs and histories that are part of every child's education are taught and learned aloud, passed on down the years from living voice to living voice..wondered, it being winter and all, and you being on the roads. He had thought he was on the way to the village, but had taken a wrong turning somewhere. Tall reeds rose up close beside the paths, so that if a

light shone anywhere he could not see it. Water chuckled softly somewhere near his feet. He had used up his shoes walking round Andanden on the cruel roads of black lava. The soles were worn right through, and his feet ached with the icy damp of the marsh paths..Religion was a unifying element even among the most warlike tribes. There were hundreds of Truce Places on the Four Lands, where no warfare or dispute was permitted. Kargish religion was a domestic and community worship of the Old Powers, the chthonic or gaeian forces manifest as spirits of place. They were worshiped at the site and at home altars with offerings of flowers, oil, food, dances, races, sacrifices, carvings, songs, music, and silence. Worship was both casual and ritual, private and communal. There was no priesthood; any adult could perform the ceremonies and teach children to do so. This ancient spiritual practice has continued, unofficially and sometimes in hiding, under the newer, institutional religions of the Twin Gods and the Godking..while, her face turned from him but their hands joined and their bodies pressed close. Enlad of the Kings, and bright Ea, eldest of isles! Surely we'll find allies there".When he was Gelluk's prentice and assistant, he had encouraged his master in the study of the lore of Way, finding himself free while Gelluk was off doting on his quicksilver. But Gelluk's abrupt fate had shaken him. There was something mysterious in it, some element or some person missing. Summoning the useful Hound to help him, Early had made a very thorough inquiry into what happened. Where Gelluk was, of course, was no mystery. Hound had tracked him straight to a scar in a hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy who had been with him, Hound could not track: could not say whether he was under that hill with Gelluk, or had got clean away. He had left no spell traces as the mage did, said Hound, and it had rained very hard all the night after, and when Hound thought he had found the boy's tracks, they were a woman's; and she was dead..If Diamond had been born to that kind of power, if that was his gift, then all Golden's dreams and plans of training him in the business, and having him help in expanding the carting route to a regular trade with South Port, and buying up the chestnut forests above Reche -- all such plans dwindled into trifles. Might Diamond go (as his mother's uncle had gone) to the School of Wizards on Roke Island? Might he (as that uncle had done) gain glory for his family and dominion over lord and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? Golden all but floated up the stairs himself, borne on such visions..Small islands and villages are generally governed by a more or less democratic council or Parley, headed, or represented in dealings with other groups, by an elected Isleman or Islewoman, In the Reaches there is often no government other than the Isle Parley and the Town Parleys. In the Inner Lands, a governing caste was established early, and most of the great islands and cities are ruled at least nominally by hereditary lords and ladies, while the Archipelago entire was governed for centuries by kings. Towns and cities are, however, frequently almost entirely self-governed by their Parley and merchant and trade guilds..the weakness of the old darkness came into Erreth-Akbe's limbs..He slept there, on the ground. At sunrise he got up and walked by the high road over to Re Albi. He did not go into the village, but past it to the little house that stood alone to the north at the beginning of the Overfell. The door of the house stood open..She looked at him. She could not speak. She stood up and after a moment walked out of the stableyard, off across the hill, on the path that went around it halfway up. One of the dogs, her favorite, a big, ugly, heavy-headed hound, followed her. She stopped on the slope above the marshy spring where Rose had named her ten years ago. She stood there; the dog sat down beside her and looked up at her face. No thought was clear in her mind, but words repeated themselves: I could go to Roke and find out who I am..about Silence. I should send for him ... send to him ... No. What did Ard say? It was men's ambitions, they said, that had perverted all the arts to ends of gain. "We do not deal with their governments," said tall Veil in her mild voice..Of late, entering always deeper into the mysteries of a certain lore-book brought back from the Isle of Way by one of Losen's raiders, Gelluk had become indifferent to most of the arts he had learned or had discovered for himself. The book convinced him that all of them were only shadows or hints of a greater mastery. As one true element controlled all substances, one true knowledge contained all others. Approaching ever closer to that mastery, he understood that the crafts of wizards were as crude and false as Losen's title and rule. When he was one with the true element, he would be the one true king. Alone among men he would speak the words of making and unmaking. He would have dragons for his dogs..Otter had got control of his face and voice. He wiped his eyes and nose, cleared his throat, and..craft. Medra had been the Master Finder, until he went to the

There's so little in most lives that's beautiful or worthy." Though not a sorcerer, Licky was a much more formidable man than Hound. Yet like Hound he was brutal not cruel. He demanded obedience, but nothing else. Otter had seen slaves and their masters all his life in the shipyards of Havnor, and knew he was fortunate. At least in daylight, when Licky was his master..went to the door to see what she loved best to see, the sky before sunrise. Looking down from it. So they talked, that long winter, and others talked with them. Slowly their talk turned from. He pulled up some grass and rubbed at the slimy mud on his feet and legs. It was not dry yet, and. stones nearby and the clang-clang of the smithy further off. The girl sat down facing him..Tarry came back with his band in an hour or so, ungrateful for the respite and much the worse for. "Ah," said Diamond, floored. The Summoner's art is perhaps the most arcane and dangerous of all. I felt a little like laughing, but mainly I was nonplused. I quickly turned around: another. of the Earth. But the jealousy in him was like a stinging fire..I'll lock the house door. There's... there's been strangers about. You rest yourself. It's bitter. The witch shook her iron-grey head once. "I can't tell you." Her 'can't' did not mean 'won't'. Dragonfly waited. "It's the power, like I said. It comes just so." Rose stopped her spinning and looked up with one eye at a cloud in the west; the other looked a little northward of the sky. "You're there in the water, together, you and the child. You take away the child-name. People may go on using that name for a use-name, but it's not her name, nor ever was. So now she's not a child, and she has no name. So then you wait. You open your mind up, like. Like opening the doors of a house to the wind. So it comes. Your tongue speaks it, the name. Your breath makes it. You give it to that child, the breath, the name. You can't think of it. You let it come to you. It must come through you to her it belongs to. That's the power, the way it works. It's all like that. It's not a thing you do. You have to know how to let it do. That's all the mastery." This is only a seeming of me, a presentment, a sending," the old man said to her. "I don't live
