With an inarticulate screech, he ploughs through them, swatting them aside with the backs of his hands, kicking them out of his way with his heavy-booted feet. The Intermediaries break easily, and it occurs to me then that they are probably as disposable a commodity among the Sreen as tissue paper is among human beings. One Intermediary is left limping along after the captain. Through the clear pale skin of its back, I see that some vertebrae have been badly dislocated. The thing nevertheless succeeds in overtaking the captain and wrapping its appendages around his calf, bleating all the while, "No, no, you must abide by the edict, even as every other inferior species has, you must abide. . . ." The captain is having trouble disentangling himself, and so I go to him. Together, we tear the Intermediary loose. The captain flings it aside, and it bounces off the great portal, spins across the polished floor, lies crushed and unmoving..But that was legend, like Mama Dolores' stories about the snake-people. They are talking about a system with one hundred terminals running on two Megalo 861's for starters. Eventually they may order a dozen 861's. Everyone here in Headquarters is too excited about the prospect of selling that kind of hardware to worry about why the program was written in the first place.."We'll stop that sort of thinking right now. I'm tile mission commander. I appreciate you taking over while I was . . . how did you say it? Indisposed. But you should pay more attention to the social aspects of our situation. If anyone is a commodity here, it's you and Ralston, by virtue of your scarcity. There will be some thorny questions to resolve there, but for the meantime we will function as a unit, under my command. Your ship is protected by shields against any attack, but you must be careful to maintain your energy supply.
