to be ruled by a woman called the Dark Woman, who was in league with the Old Powers of the earth.. "The Hound serves Losen," he said. "I'll go today."..singer of the West of Havnor, Diamond who had harped and sung to the great lords in the Tower of. "Say it, then."..sprang up out of it and ran across the wizard's feet..man, near eighty now; and he was frightened. He smiled with joy to see Ogion, but he was..which may explain why they have generally held themselves aloof from trade or any kind of..For a long time nobody would touch him. He had fallen down in a fit in San's doorway. He lay there now like a dead man. But the curer from the south said he wasn't dead, and was as dangerous as an adder. San told how Otak had put a curse on Sunbright and said some awful words that made him get smaller and smaller and wail like a stick in the fire, and then all in a moment he was back in himself again, but sick as a dog, as who could blame him, and all the while there was this light around the other one, Otak, like a wavering fire, and shadows jumping, and his voice not like any human voice. A terrible thing..Hound was down at the door, they said. Early sent for him to come up. "Who's Tern?" he asked as soon as he saw the old man..hmn. They know I love him. As for the ships, some had come back, with the men aboard saying they..stranger. When they saw Irioth they looked uneasy. San went into his house and the stranger..again with that yearning look. The sun was setting; he stood up, bade her goodnight gently, and..The conversation had trailed off somehow. It seemed to me that the girl was beginning to..and fifty-seven. . .".She had planted a young rowan from the Grove beside the fountain. They came to be sure it was thriving. The spring wind blew strong, seaward, off Roke Knoll, blowing the water of the fountain astray. Up on the slope of the Knoll they could see a little group of people: a circle of young students learning how to do tricks of illusion from the sorcerer Hega of O; Master Hand, they called him. The sparkweed, past flowering, cast its ashes on the wind. There were streaks of grey in Ember's hair.. "So the vulgar call it, or quicksilver, or the water of weight. But those who serve him call him the King, and the Allking, and the Body of the Moon." His gaze, benevolent and inquisitive, passed over Otter and to the tower, and then back. His face was large and long, whiter than any face Otter had seen, with bluish eyes. Grey and black hairs curled here and there on his chin and cheeks. His calm, open smile showed small teeth, several of them missing. "Those who have learned to see truly can see him as he is, the lord of all substances. The root of power lies in him. Do you know what we call him in the secrecy of his palace?"..know. . .".all he knew, but I never found anybody to give that knowledge to, until you came," he told Medra..And Tuly smiled and stroked his hand..The slave, short and thin, hairless, with running sores on his hands and arms, uncapped a stone..until..uncaring, disembodied eye. He could see only what the flicker of werelight showed just around him..crows are flying early and the hound's after the otter," he said..in magic. Since the Kargs did not practice wizardry as the Hardic peoples understood it, Intathin."Did you think I was one of their eunuchs? That I'd castrate myself with spells so I could be holy? Why do you think I don't have a staff? Why do you think I'm not at the School? Did you believe everything I said?"..and jealousy he knew and shrank from, and contempt he remembered. He was glad he was not one of..they held their land and people with firm hands, putting their gains back into the land, upholding."The Summoner was among us when we stood on Roke Knoll and saw the Archmage kneel to King Lebannen. Then, as the dragon bore our friend away, the Summoner fell down..said, "Might be a good idea. Come to Roke. Safer."..wizard..Hemlock nodded. "That is quite understandable, among children. And quite impossible now. Do you understand that?" "No," Diamond said..binding spell on the boy that held him upright and immobile as a stone statue, and left him so for..the way." He waited a while. He saw darkness, heard silence. Slow and halting, he entered the..drank from it eagerly yet warily, as if long unaccustomed to hot soup..land to land." But since he had been traveling about in Earthsea he had."Do you hear the words?" "Your majesty is sending forth his fleets," Early said to the staring old man in the armchair in the palace of the kings. "A great enemy has gathered against you, south in the Inmost Sea, and we are going to destroy them. A hundred ships will sail from the Great Port, from Omer and South Port and your fiefdom on Hosk, the greatest navy the world has seen! I shall lead them. And the glory will be yours," he said, with an open laugh, so that Losen stared at him in a kind of horror, finally beginning to understand who was the master, who the slave..thundered; she fell flat on the ground..control them wholly. Is that what Thorion does?"..he come here, is what you have to ask." "To cure the beasts," Gift said..think about being a man."..lands like Havnor or worse, sunk in warfare, raids, and piracy, the fields full of weeds, the.. "We couldn't save ourselves." "Go with the water," said Ayo..you could, no one would want to. You can't fly before you're thirty. You have to have two..four or five times a day, it'll heal clean, I'm sorry." She said the last honestly, though..Ivory said, "but the only city in the world is Havnor."..They would ask all the other Masters to meet with them in the Grove. "But he won't come," Deyala..warmth and weight of her touch that he had wasted so much time wanting..we?"..with themselves, their life. When they talked to each other it was always about what they were..He's so proud of it, his stupid domain, his stupid grandfather. I don't want it. I won't have it.. "What does Thorion intend?" asked the Namer..They came out

again among the ploughlands and pastures in the warm evening. As they walked back to. It looked very old. It had been rebuilt and rebuilt again, but not for a long time. Nor had anyone lived in it for a long time, from the feel of it. But it was a pleasant feeling, as if those who had slept there had slept peacefully. As for decrepit walls, mice, cobwebs, and scant furniture, none of that was new to Irian. She found a bald broom and swept out a bit. She unrolled her blanket on the plank bed. She found a cracked pitcher in a skew-doored cabinet and filled it with water from the stream that ran clear and quiet ten steps from the door. She did these things in a kind of trance, and having done them, sat down in the grass with her back against the house wall, which held the heat of the sun, and fell asleep..she did not speak..pouch made of a sheep's stomach. "Keep her quiet," said the young woman, and left him holding the mare's reins in this deserted place. She returned after some time lugging a heavy bucket, and set to sponging off the mare's leg. "Get the saddle off her," she said, and her tone held the unspoken, impatient, "you fool!" Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. She did not put him in mind of a flowering tree at all, but she was in fact beautiful, in a large, fierce way. The mare submitted to her absolutely. When she said, "Move your foot!" the mare moved her foot. The woman wiped her down all over, put the saddle blanket back on her, and made sure she was standing in the sun. "She'll be all right," she said. "There's a gash, but if you'll wash it with warm salt water four or five times a day, it'll heal clean, I'm sorry." She said the last honestly, though grudgingly, as if she still wondered how he could have let his mare stand there to be assaulted, and she looked straight at him for the first time. Her eyes were clear orange-brown, like dark topaz or amber. They were strange eyes, right on a level with his own.. "When the balance is wrong, holding still is not good. It must get more wrong," said the. "They know the Rule doesn't allow them."..Eldest, brought Ged and Lebannen to Roke Island.. "Maybe with such teaching you could teach the wizards a lesson," Mead said..It was no use trying to impress her; all she said was, "Ships don't trade much to Roke, do they?..His old master was sitting in the grass near the pond, eating an apple. Bits of eggshell flecked the ground near his legs, which were caked with drying mud. When he looked up and saw Ogion's sending he smiled a wide, sweet smile. But he looked old. He had never looked so old. Ogion had not seen him for over a year, having been busy; he was always busy in Gont Port, doing the business of the lords and people, never a chance to walk in the forests on the mountainside or to come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old man, near eighty now; and he was frightened. He smiled with joy to see Ogion, but he was frightened..me!"..not seen him for over a year, having been busy; he was always busy in Gont Port, doing the..Knowing the Enemy's name, he was able to counter his enchantments and drive him from Enlad.. "If it's a real gift, an unusual capacity, that's even more true. A witch with her love potions can't do much harm, but even a village sorcerer, he said, must take care, for if the art is used for base ends, it becomes weak and noxious.... Of course, even a sorcerer gets paid. And wizards, as you know, live with lords, and have what they wish."..followed the goat-tracks, growling when his foot slipped in the mud and he wrenched his ankle to..and the women and the dirty, timid children drew closer to see the wonders he would show them..He sailed up the broad straits till Mount Onn was hidden by the headlands at the mouth of the Bay of Havnor. He would not see it again unless he went through that narrow passage. Then he would see the mountain, all the sweep and cresting of it, over the calm waters where he used to try to raise up the magewind when he was twelve; and sailing on he would see the towers rise up from the water, dim at first, mere dots and lines, then lifting up their bright banners, the white city at the center of the world.. "A group of young men," said the Herbal, breathless, as he came to them. "Thorion's army. Coming here. To take the girl. To send her away." He stood and drew breath. "The Doorkeeper was speaking with them when I left. I think -".far as Diamond could see, doing no magic at all. One night Veil, who was three years older than Ember and to whom the memory was much clearer, told it to him fully. Ember sat with them, listening in silence..They jolted on all the next day through a summer thundershower or two and came at dusk to Kembermouth, a walled, prosperous port city. They left the carter to his master's business and walked down to find an inn near the docks. Dragonfly looked about at the sights of the city in a silence that might have been awe or disapproval or mere stolidity. To Diamond it was as if he held his future, his own life, his whole life, in his arms..GOLDEN WAS immensely happy and quite unconscious of it.
