Crow cocked his head..Gont Port lies at the inner end of a long narrow bay between steep shores. Its entrance from the sea is between two great headlands, the Gates of the Port, the Armed Cliffs, not a hundred feet apart. They are safe from sea-pirates in Gont Port. But their safety is their danger; the long bay follows a fault in the earth, and jaws that have opened may shut..thought could not hold it. His knowledge could not use it. "Of course," he said, his smile growing brilliant. "But witches aren't always chaste, are they? Maybe that's what the Masters are afraid of. Maybe celibacy isn't as necessary as the Rule of Roke teaches. Maybe it's not a way of keeping the power pure, but of keeping the power to themselves. Leaving out women, leaving out everybody who won't agree to turn himself into a eunuch to get that one kind of power ... Who knows? A she-mage! Now that would change everything, all the rules!".He told Dragonfly very little of his plans, largely because he made few, trusting to chance and.paying copper where he thought he might have to pay ivory." Whenever Birch had guests from Kembermouth or from neighboring domains, the herd of deer, the swans, and the fountain of golden wine made their appearance. He also worked up some very pretty fireworks for warm spring evenings. But if the managers of the orchards and vineyards came to the Master to ask if his wizard might put a spell of increase on the pears this year or maybe charm the black rot off the Fanian vines on the south hill, Birch said, "A wizard of Roke doesn't lower himself to such stuff. Go tell the village sorcerer to earn his keep!" And when the youngest daughter came down with a wasting cough, Birch's wife dared not trouble the wise young man about it, but sent humbly to Rose of Old Iria, asking her to come in by the back door and maybe make a poultice or sing a chant to bring the girl back to health..All the thoughts he had not been able to think for days and weeks were racing through his head, a.followed her, but only to the door. "If you can cure the cattle, the cattlemen will pay you, and you can pay me then. Call that surety, if you like. But put it away, sir! It makes me dizzy to look at it. -Berry," she said, as a nobbly, dried-up man came in the door with a gust of cold wind, "the gentleman will stay with us while he's curing the cattle-speed the work! He lay huddled and crumpled near where the little seep-stream dripped from the ledge of mica. Not far away lay another huddled heap, rotted red silk, long hair, bones. Beyond it the cavern stretched away. He could see that its rooms and passages went much farther than he had known. He saw it with the same uncaring interest with which he saw Tinaral's body and his own body. He felt a mild regret. It was only fair that he should die here with the man he had killed. It was right. Nothing was wrong. But something in him ached, not the sharp body pain, a long ache, lifelong..coronation, here. By the Archmage Thorion." "But you can't have me without the music." Again he paused. All at once he looked straight at Otter, who froze in terror thinking the wizard had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted Otter's shoulder. "I know you have the gift of finding what's hidden. Quite a great gift, were it suitably trained. Have no fear, my son. I know why you led my servants only to the little lode, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. And there's no use trying to conceal anything from me, is there? The wise child loves his father and obeys him, and the father rewards him as he deserves." He leaned very close, as he liked to do, and said gently, confidentially, "I'm sure you can find the great lode." She had thought maybe his talk of coming here to cure the cattle sickness was one of the mad bits. He did not act like the curers who came by with remedies and spells and salves for the animals. But after he had rested a couple of days, he asked her who the cattlemen of the village were, and went off, still walking sore-footed, in Bren's old shoes. Must they do so for a thousand years with no hope?" "Then I'll carry the cheeses to Oraby," she said, "and sell em there. In the name of honor, brother, go wash out that cut, and change your shirt.
