The True Runes used in the Archipelago embody words of the Speech of the Making. True Runes are pressed, and into my palm fell a colored, translucent tube, slightly warm. I shook it, held it up to teach me how to make stones into diamonds? Can you give me a sword that will kill a dragon? What's underfed dogs to keep interlopers off his land.. A long silence, then suddenly:..could and burning what they left. Then the great fleet turned west, heading for the one harbor of Havnor Great Port; he owned the biggest chestnut groves; he owned the carts and hired the carters. The new student cleaned out the henhouse and hoed the bean-patch, learned the meaning of the Glosses of Danemer and the Arcana of the Enlades, and kept his mouth closed. He listened. He heard what Dulse said; sometimes he heard what Dulse thought. He did what Dulse wanted and what Dulse did not know he wanted. His gift was far beyond Dulse's guidance, yet he had been right to come to Re Albi, and they both knew it..away from her in the running of the water, and she floated in delight in the caress of the stream..But Otter was intensely aware of Gelluk, both physically and as a presence of immense controlling. They won't listen. The Rule of Roke forbids women to be taught any high art, any word of the Language of the Making. It's always been so. They will not listen. So they must be shown! And we'll show them, you and I. We'll teach them. You must have courage, Dragonfly. You must not weaken, and not think, "Oh, if I just beg them to let me in, they can't refuse me." They can, and will. And if you reveal yourself, they will punish you. And me." In Golden's understanding, money was power, but not the only power. There were two others, one equal, one greater. There was birth. When the Lord of the Western Land came to his domain near Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as Golden was born to deal with commerce and wealth, each in his place; and each, noble or common, if he served well and honestly, deserved honor and respect. But there were also lesser lords whom Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor honor. "I am," he said, his composure regained..He followed him down one of the principal streets and from it into a district of small houses, the old weavers' quarter. They grew flax on Pody, and there were stone retting houses, now mostly unused, and looms to be seen by the windows of some of the houses. In a little square where there was shade from the hot sun four or five women sat spinning by a well. Children played nearby, listless with the heat, scrawny, staring without much interest at the strangers. Tern had walked there unhesitating, as if he knew where he was going. Now he stopped and greeted the women..He broke free, stood up, stooping; neither of them could stand straight in the low cabin..All this went rushing through his mind like a flood breaking through a dam, while he stood at the edge of the woods with Veil. So the master's sending him all about the range to do what can be done. It's too late for many." The wind had come up again. They were both shivering, their teeth chattering. They stood face to face in the black lane, hardly able to see where the other was. Dragonfly put out her groping hand and met the witch's hand. They put their arms round each other in a fierce, long embrace. Then they hurried on, the witch to her hut near the village, the heiress of Iria up the hill to her ruinous house, where all the dogs, who had let her go without much fuss, received her back with a clamour and racket of barking that woke everybody for a half-mile round except the Master, sodden drunk by his cold hearth. commerce with any other people. It was gone, run out of him into this terrible hill, into the terrible ground under him, gone. He was no wizard, only a man like the others, powerless. He was half asleep, sitting on the ground in the shade by the barracks, the smell of the logs stacked by the roaster tower bringing him a memory of the work yards at home, the fragrance of new wood as the plane ran down the silky oak board. I haven't hunted you all these years to give you to Early. The way I gave you to Gelluk. I was sorry for that. I thought about it. What I said to you about men of a craft sticking together. And who we work for. Couldn't see that I had much choice about that. But having done you a disfavor, I thought if I came across you again I'd do you a favor, if I could. In flight, I must have had a none-too-intelligent expression on my face. Knowledge of these places and powers was the heart of religion in the Kargad Realm. In the Archipelago, the lore of the Old Powers was still part of the profound, common basis of thought and reverence. On all the islands, the arts mostly practiced by witches, such as midwifery, healing, animal husbandry, dousing, mining and metallurgy, planting and growing spells, love spells, and so on, often invoked or drew upon the Old Powers. But the learned wizards of Roke had generally come to distrust the ancient practices and made no appeal to the "Powers of the Mother." Only in Paln did wizards combine the two practices, in the arcane, esoteric, and reputedly dangerous Pelnish Lore. "You wanted to. . ." "And what was I supposed to feel?" He began to say something to San, but Irioth spoke. He still stood there, and she said, "Look at the peaches! They're all ripe. We'll have to eat them right away." "This way, this way," Gelluk murmured. "No harm will come to you." They came to the doorway of the roaster tower, a narrow passage in the three-foot-thick walls. He took Otter's arm, for the young man hesitated. "Have you anything to tell me?" Dulse asked them. "I wasn't well taught, in the City of Havnor," he said. "My teachers told me not to use magic to bad ends, but they lived in fear and had no strength against the strong. They gave me all they had to give, but it was little. It was by mere luck I didn't go wrong. And by Anieb's gift of strength to me. But for her I'd be Gelluk's servant now. Yet she herself was untaught, and so enslaved. If wizardry is ill taught by the best, and used for evil ends by the mighty, how will our strength here ever grow? What will the young dragon feed on?". He spoke in the Old Speech, the Language of the Making. "Come along, then, Ulla," he said, and the heifer came a step or two towards him, towards her name, while he walked to meet her. He made out the big head more by touch than sight, stroking the silken dip between her eyes, scratching her forehead at the roots of the nubbin horns. With the packet, which was delivered by one of Golden's carters who had taken a load of spars down to South Port, was a note for Diamond. It said, "True art requires a single heart." The direction on the outside was the Hardic rune for willow. The note was signed with Hemlock's rune, which had two meanings: the hemlock tree, and suffering..
