He stopped to listen, and heard nothing.. "Irian, here's what you must do to enter the Great House..." .librarian. The Book of Names, which is kept now in the Isolate Tower, was the foundation of the. Her use-name had been Flag, the blue iris of the springs. Her mother and aunt called her Flag when. "Put your feet up to the fire," she said abruptly. "I have some old shoes of my husbands." It cost her something to say that, yet when she had said it she felt released, untied too. What was she keeping Bren's shoes for, anyhow? They were too small for Berry and too big for her. She'd given away his clothes, but kept the shoes, she didn't know what for. For this fellow, it would seem. Things came round if you could wait for them, she thought. "I'll set em out for you," she said. "Yours are perished." In the west of Havnor, among hills forested with oak and chestnut, is the town of Glade. A while ago, the rich man of that town was a merchant called Golden. Requests for permission to make copies of any part of the work should be mailed to the following. "Is this some kind of custom?". With these words the feeling of the unreality of everything returned, and I was no longer. "What, it's bad?". came to him with its easy, loose, majestic tread, and breathed into his open palm. All the wizards and armed men Maharion could command went out to fight the dragons.. "I'll keep the door," Medra said. "Being lame, I won't go far from it. Being old, I'll know what to say to those who come. Being a finder, I'll find out if they belong here." That is not what the otter was thinking as it swam fast down the Yennava. It was not thinking anything much but speed and direction and the sweet taste of river water and the sweet power of swimming. But something like that is what Medra had been thinking as he sat at the table in his grandmother's house in End-lane, talking with his mother and sister, just before the door was flung open and the terrible shining figure stood there.. his eyes on that seed of light.. "Are you?". She was looking down at her hands, clasped now on her knees. In the faint reddish glow of the cabin lantern her lashes cast very delicate, long shadows on her cheeks. She looked up, straight at him. "My name is Irian," she said.. The witch shook her iron-grey head once. "I can't tell you." Her 'can't' did not mean 'won't'. Dragonfly waited. "It's the power, like I said. It comes just so." Rose stopped her spinning and looked up with one eye at a cloud in the west; the other looked a little northward of the sky. "You're there in the water, together, you and the child. You take away the child-name. People may go on using that name for a use-name, but it's not her name, nor ever was. So now she's not a child, and she has no name. So then you wait. You open your mind up, like. Like opening the doors of a house to the wind. So it comes. Your tongue speaks it, the name. Your breath makes it. You give it to that child, the breath, the name. You can't think of it. You let it come to you. It must come through you to her it belongs to. That's the power, the way it works. It's all like that. It's not a thing you do. You have to know how to let it do. That's all the mastery." .restore the law that Thorion returned." .to Endlane, where the mother lived. Early rummaged in their cloudy, witless minds, had the. was nearly inaudible, a rough whisper.. Power of birth and power of money were contingent, and must be earned lest they be lost.. go tell him that, if you like!" And so on. Old Daisy went back to her kitchen and old Coney went. Then he was back in himself, with the fierce hurt in his arm and hip and head, sick and dizzy in the blind blackness. When he moved, he whimpered; but he sat up. I have to live, he thought. I have to remember how to live. How to make light. I have to remember. I have to remember the shadows of the leaves.. dark. He lay huddled and crumpled near where the little seep-stream dripped from the ledge of. sculpture in breathing metal. At her ears she had something shining, so large that it covered them. "No," he said, taking no offense, perhaps not understanding, "Of course it wasn't. I beg your." "The problem is the music," his mother said at last.. "I don't either. Morred and Elfarran sang to each other, and he was a mage. I think there's a Master Chanter on Roke, that teaches the lays and the histories. But I never heard of a wizard being a musician." "Why not? I can tell you. There were twenty-three of us altogether, on two ships. The. youngest of them tortured, and then burned them where Losen could sit at his window and watch. The. "I don't know, my dear. I do want you to be safe. I do love to see your father happy and proud of you. But I can't bear to see you unhappy, without pride! I don't know. Maybe you're right. Maybe for a man it's only one thing ever. But I miss hearing you sing." "Not hiding at all. Went about the city, talking to people. Went to see his mother in Endlane.. learn an art you had no native gift for. In such discussions they worked out the names that ever. He recognized Hound, though he could not sit up and could barely speak. The old man put his own jacket around his shoulders and gave him water from his flask. Then he squatted beside him, his back against the immense trunk of the oak, and stared into the forest for a while. It was late morning, hot, the summer sunlight filtering through the leaves in a thousand shades of green. A squirrel scolded, far up in the oak, and a jay replied. Hound scratched his neck and sighed.. "If you stayed here, what would you do?" the black-browed woman asked him.. I sat down. My fingers were unsteady; I wanted to hold something in them. I pulled a. act of doing things well.. would have the boy call him Father. He recalled that he had intended to find out his true name.. "Do people still live there?" Medra asked, and the master said, "Witches," while his brother said, "Worm eaters." As the dim light that came into the room from chinks in the mortar of the bricked-up window died away, instead of sinking into the blank misery of all his nights in that room, he stayed awake, and grew more awake. The excited turmoil of his mind all the time he had been with Gelluk slowly quieted. From it something rose, coming close,

coming clear, the image he had seen down in the mine, shadowy yet distinct: the slave in the high vault of the tower, that woman with empty breasts and festered eyes, who spat the spittle that ran from her poisoned mouth, and wiped her mouth, and stood waiting to die. She had looked at him. "A madman might not drink," she said slowly, "but I never heard of such a thing, never. . .The witch said nothing. "He does that," the cowboy said to Gift. "Talks at em." From now on he could talk only the language of duty: the getting and the spending, the outlay and the income, the profit and the loss.."It's nothing," he said. In fact, rather to his annoyance, the cut had stopped bleeding. The woman's gaze returned to his face..without a spell or two. A village hut with a palace floor. The old man waded through the stream barefoot, holding his shoes in one hand and his tall staff in the other, snarling when he missed his footing on the rocks. He sat down on the near bank to dry his feet and put his shoes back on. "When I go back to the Tower," he said, "I'll ride. Hire a carter, buy a mule. I'm old, Azver."..Highdrake took Medra as his student, gratefully. "I was taught my art by a mage who gave me freely all he knew, but I never found anybody to give that knowledge to, until you came," he told Medra. "The young men come to me and they say, "What good is it? Can you find gold?" they say. "Can you teach me how to make stones into diamonds? Can you give me a sword that will kill a dragon? What's the use of talking about the balance of things? There's no profit in it," they say. No profit!" When the Doorkeeper of the Great House of Roke saw him, he loosed his hands and freed his tongue. And the first thing the boy did in the Great House, they say, he turned the Long Table of the dining hall upside down, and soured the beer, and a student who tried to stop him got turned into a pig for a bit... But the boy had met his match in the Masters..summoned myself again into life, to do what must be done."..so. Now that's the bargain, right? And if you play fair I will."..times-poor, coarse food, but he ate it all, slowly, valuing it. Come evening the brother

went off. He could eat only in the cell, where they took his gag off. Bread and onions were what they gave him, with a slop of rancid oil on the bread. Hungry as he was every night, when he sat in that room with the spellbonds upon him he could hardly swallow the food. It tasted of metal, of ash. The nights were long and terrible, for the spells pressed on him, weighed on him, waked him over and over terrified, gasping for breath, and never able to think coherently. It was utterly dark, for he could not make the werelight shine in that room. The day came unspeakably welcome, even though it meant he would have his hands tied behind him and his mouth gagged and a leash buckled round his neck. "Then you must tell me the word you will speak to the Doorkeeper." had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had. When she did so, Alder's wife Tawny and several other people agreed with her that a squabble between sorcerers over work was nothing new and nothing to take on about. But San and his wife and the tavern crew wouldn't let it rest, it being the only thing of interest to talk about for the rest of the winter, except the cattle dying. "Besides," Tawny said, "my man's never averse to paying copper where he thought he might have to pay ivory." "Are the cattle he touched keeping afoot, then?" "So far as we can see, they are. And no new sickenings." "He's a true sorcerer, Tawny," Gift said, very earnest. "I know it." "That's the trouble, love," said Tawny. "And you know it! This is no place for a man like that. Whoever he is, is none of our business, but why did he come here, is what you have to ask." "To cure the beasts," Gift said. The heap moved, and roused up slowly. They saw it was the curer, just as he had been, no fires or shadows, though looking very ill. But he looked up, not at Ged but at Gift, silent in the hearth corner. "But I can come," she said. "You have?" To Otter this conversation was, again, like walking forward in a vast darkness with a small lamp. Anieb's understanding was that lamp. Each step revealed the next step he must take, but he could never see the place where he was. He did not know what was coming next, and did not understand what he saw. A tale of the Vedurnan or Division, known in Hur-at-Hur, says: "She's very sick, Rush," the girl said. She looked again at Tern. "You're not a healer?" It was an accusation.
