84. "You're right," said McKillian. "I don't really know. But I have a theory. Since these plants waste." "No, nothing," said Smith. "That's all right, Jack, thank you." He broke the connection. After a moment he turned to the breadboard controls of the device and changed one setting slightly. In the screen, Peg turned and walked backward out of the office. When he turned the knob the other way, she repeated these actions in reverse. Smith tinkered with the other controls until he got a view of the calendar on Jack's desk. It was Friday, June 15th last week. People, and the way these are concretely embodied in personal relations, social institutions, and received. He surmounted the second stage. The third. Ike and I stayed right behind him. The fourth. The fifth. We were high now. Looking down over my left shoulder, I could see the diminutive dwellings of the city and the minuscule mud huts of the suburbs. Looking down over my right, I could see the Plain, with its myriad fields of millet and barley and its sparkling irrigation ditches. In the distance the easternmost of. "Thanks." Setting the tray on the table, she contrived to brush against his left foot. "I see you're wearing the same shoes." area. Now she lay on the bunk, her feet sprawled carelessly in front of her. "And once we get out from under the boat," said Amos, "we can climb back in." "Is something the matter?" she asked, handing him the uppers with a glass of water. "You look. Fallows took in the rest of the information from the screen. The changes that the computers had detected were tiny--the merest beginnings of a trend which, if it continued at the present rate, wouldn't approach anything serious for a month or more. With only another three months to go before the ship reached Chiron there was no cause for alarm since the rest of the pump-group had enough design margin to make up the difference even without the backup. But even so, there was little doubt that Merrick would insist on the primary's being stripped down to have its bearings reground, alignment rechecked, and rotor rebalanced again. They had been through that routine twice already in the three months that the main drive had been firing. That meant another week of working in near-zero g and klutzing around in heavy-duty protective suits on the wrong side of the stern radiation shield. "Bloody pump," Fallows muttered sourly. the dim past.) "Your greatest happiness will be to look into this mirror?" "Sure. That's what I'm here for, isn't it?" "My God!" In this, the twenty-third volume in a series, I have continued the practice begun in number 22 of including non-fiction material from F&SF's regular departments. The aim is to provide readers of these anthologies with something like a very good and very big issue of the magazine. Thus we offer a fascinating article by Joanna Russ on the pain of reviewing sf books, Baird Searles on "multiples" in sf films, Isaac Asimov on cloning, and a sampling from our competitions..
